QUESTION 1

The App-A-Day company offers software applications for various topics. When a customer purchases a desired application from the App-A-Day online store, he is directed to a page where he can download the application directly.

When the customer is redirected and begins downloading the application, which specific standard protocol is most likely transferring the application?

- A. FTP
- B. HTTPS
- C. HTTP
- D. SMTP

Correct Answer: A

QUESTION 2

You received an e-mail message on which several other individuals were copied. You want to respond to this message in a way that will include everyone who was copied on the original message.

You can accomplish this by using which action?

- A. Reply
- B. Reply All
- C. Forward
- D. Send

Correct Answer: B

QUESTION 3

Selena needs to send a message to her manager providing all the details of a business proposal. The idea they have discussed is critical to the business. The project is considered urgent and confidential. Selena wants to get this outline to her manager as quickly as possible.

What would be the most appropriate way Selena could use an SMS (text) message in relation to this proposal?

- A. To send a useful summary of the proposal to her manager so that the manager has it available during a presentation.
- B. To alert her manager that she has sent the proposal via e-mail so her manager can view the proposal as soon as possible.
- C. To provide a detailed outline of the proposal so that her manager can refer to it as he travels.

D. To send the proposal as an attachment to the text message.

Correct Answer: B

QUESTION 4

Raoul has received a file attachment from a known individual. He has no reason to expect files from this individual.

Which of the following is an effective security strategy for Raoul to take?

- A. Open the file attachment and use anti-virus software to scan it
- B. Before opening the attachment, use anti-virus software to scan the system's hard disk.
- C. Make back-up copies of important files so that it is possible to recover them in case of an incident.
- D. Before opening the attachment, call or send a text or instant message to the individual to verify that he or she meant to send it.

Correct Answer: D

QUESTION 5

Digital signatures verify the integrity of the data, verify the identity of the sender, and:

- A. Provide data confidentiality.
- B. Enforce non-repudiation.
- C. Sign digital certificate requests.
- D. Create certificate requests.

Correct Answer: B
