- A. View Administrator
- B. VMware Workspace Portal
- C. Linked Clones
- D. VMware Mirage

Correct Answer: B

QUESTION 4

A manager is planning next year's budget and is concerned that desktop computers cost too much money for the length of time they are able to be used. The manager wants a solution that is not just simple, but one that will last for years with little required maintenance.

Which type of business challenge is the manager being faced with?

- A. Security
- B. Management
- C. Accessibility
- D. Application

Correct Answer: C

QUESTION 5

A company wants to deploy VMware Workspace Portal in its environment, but is concerned that users will be able use unauthorized applications. Which mechanism of VMware Workspace Portal prevents this behavior?

- A. Authorized user credentials are detected from Active Directory.
- B. Unauthorized access to applications is detected and the administrator is notified.
- C. User attributes are detected and policies are enforced across applications.
- D. Access to applications by default is not allowed. Each user must request access via the interface.

Correct Answer: C
