- A. Windows Remote Desktop Services
- B. PCoIP agent
- C. Windows Routing and Remote Access Services
- D. View Agent

Correct Answer: BD

QUESTION 2

A business has a widely distributed sales force where many users do not live anywhere near a dedicated office. The business wants to issue them a laptop and manage the laptop remotely.

Which VMware solution meets this business need?

- A. VMware AirWatch
- B. VMware Workspace Portal
- C. VMware ThinApp
- D. VMware Mirage

Correct Answer: C

QUESTION 3

An administrator receives a trouble ticket reporting a low vRealize Operations for Horizon 6 score value on an object (for example, 15 out of 100).

Which course of action should the administrator recommend?

- A. The value indicates a severe problem state, a red badge, and this should be investigated immediately.
- B. The value indicates a normal state and since there are no real issues or current problems, no action should be taken.
- C. The value indicates a less severe state, a yellow badge, however this object should be monitored and should be flagged for investigation if the value changes.
- D. The value of a badge must be correlated with the color of the badge to determine if the state is normal or if there is a potential problem.

Correct Answer: D

QUESTION 4

The security manager is concerned that users are storing sensitive corporate data in public data sharing services. The manager has these requirements:

Users must be able to share data

Data must be stored in the corporate data center

Administrators should have granular policy-based control of Sharing
