QUESTION 1

A newly installed TS7720 Virtualization Engine has recently been integrated into a three-way grid. The logical volumes created in the other two systems are not properly being replicated to the new system. All local IBM and customer support resources have been exhausted in trying to determine the cause with no resolution in sight. What should be the next step to try to resolve the issue via IBM?

A. Contact local PSR to escalate

B. Contact the local SSR to escalate

C. Contact the sales representative to escalate

D. Contact the local software provider to escalate

Correct Answer: C

QUESTION 2

A customer has the requirement to store large amounts of archive data on native tape which will be accessed rarely, as well as a smaller amount of data where fast access is important. Which IBM Enterprise Tape function provides the flexibility to meet both requirements?

A. Speed Matching

B. Capacity Scaling

C. SkipSync / Virtual Backhitch

D. Media Re-Use over multiple Generations

Correct Answer: B

QUESTION 3

Which of the following best describes the TS1140 EastSync function?

A. Matches the input and output data rates of the main buffer

B. Uses a non-volatile cache for small transaction sizes (less than 204 MB compressed)

C. Reads forward to the requested target block rather than performing a higher-speed tape motion

D. Improves synchronized write performance for larger transactions (greater than 204 MB compressed)

Correct Answer: B

QUESTION 4

What provides a point-in-time view of the customer\\'s tape data environment?

A. GTE Trace

B. QAM database copy

C. EREP history file

D. Tape Management Catalog

Correct Answer: D

QUESTION 5

In a TS3500 with ALMS enabled, which task can be completed by using the operator panel only, but not by using the Tape Library Specialist Web interface?

A. Create or remove a logical library

B. View or change the preferred zone of an accessory

C. Disabling or changing the speed of the Ethernet link

D. Installing licensed features of the library such as capacity on demand

Correct Answer: C
