QUESTION 1

In a typical office building, Wi-Fi clients are likely to experience poor Wi-Fi coverage in what locations? (Choose 2)

- A. Cubicles
- B. Enclosed offices
- C. Hallways
- D. Elevators
- E. Stairwells

Correct Answer: DE

QUESTION 2

Select the statement that correctly describes the Wi-Fi Alliance's primary role in the WLAN industry.

- A. The Wi-Fi Alliance is a WLAN industry analyst firm that reports market trends and developments.
- B. The Wi-Fi Alliance ensures interoperability of band selection and power settings across regulatory domains.
- C. The Wi-Fi Alliance creates compliance standards around which vendors can develop products.
- D. The Wi-Fi Alliance creates recommended practices by which the IEEE can test and certify product interoperability.
- E. The Wi-Fi Alliance tests and certifies product interoperability based upon standards created by the IEEE.

Correct Answer: E

QUESTION 3

Where is the use of a Wireless Internet Service Provider (WISP) most appropriate?

- A. Wi-Fi bridging between two or more buildings within a city
- B. To provide guest access to the Internet in an office building
- C. As hot-spot connectivity in large airports and conference centers
- D. Last mile wireless data delivery to homes and businesses

Correct Answer: D

QUESTION 4

How do Wi-Fi routers differ from Wi-Fi access points?

- A. Wi-Fi routers are comprised of both a router and an access point within the same hardware.
- B. Wi-Fi routers allow wireless users to connect to a wired network, but Wi-Fi access points do not.
- C. Wi-Fi routers offer advanced security options, but Wi-Fi access points are only capable of basic security.
- D. Wi-Fi routers allow wireless users to talk to other wireless users, but Wi-Fi access points do not.

Correct Answer: A

QUESTION 5

Given: You are recommending an AP for use in a warehouse environment. Some APs will require directional antennas and others will use dipole antennas.

What feature must be supported by the APs in this installation?

- A. Multiple SSIDs
- B. Grounding wire connectors
- C. Pole mounts
- D. External antennas
- E. Variable output power

Correct Answer: D
