QUESTION 1

Which model is supported by the Remote Model REST service?

A. PortletModel

B. ContextModel

C. ThemeListModel

D. Language ListModel

Correct Answer: A

Remote Model SPI REST service The Remote Model SPI gives you access to portal models through REST services. It allows you to obtain and modify portal resources that are exposed by some of the models of the model SPI remotely, that is from clients that are outside the JVM of the server. This is achieved by means of REST services.

QUESTION 2
