#### **QUESTION 1**

Scenario

NEB is a financial management company that specializes in lendingmoney for substantial property investments. They have a large ITdepartment that is currently using the following ITSM processes:

Service Level Management Availability Management IT Service Continuity Management Information Security Management Incident Management Problem Management.

Each of these processes have been implemented within the plannedtarget time and are working effectively and efficiently. Staff haveadapted to the changes in a very positive manner and see thebenefits of using the ITIL framework.

Last Saturday, there was a security breach. A previous member ofstaff, who has left the company and joined a competitor organization, has been able to gain access to several client lending files. Afterinitial investigation, it was found that access was not terminated whenthe staff member left the company ?this has highlighted that there are insufficient processes in place to ensure access rights are terminated when staff leave the company, change roles etc and there is ongoing investigation to see how many other previous staff stillhave access to the system.

The business has requested immediate recommendations from the ITManager, as to what can be done to ensure this situation does nothappen again and how best to inform clients, with reference to these curity breach.

Refer to the scenario.

Which of the following options is most suitable to deal with this situation?

A. Your first recommendation is to implement the AccessManagement process as soon as possible. You suggestthat as the IT organization has already effectively and efficiently implemented six processes, they will be able tomanage a well executed and fast implementation. This process will ensure that access is provided to those who are authorized to have it and will ensure access is restricted to those who are not. With regards to informing clients, you recommend that clients are not told of the situation as you feel it will be too damaging to the NEB reputation and will result in acatastrophic loss of clientele. You suggest that if clients are contacted by the competitor organization, they cannot prove that any information has been obtained via NEB files and (as there is now a plan to implement AccessManagement) NEB can confidently reassure clients that there is ample security and access management in placeto ensure this situation could never arise.

B. Your first recommendation is to implement the AccessManagement process as soon as possible. You suggestthat as the IT organization has already effectively and efficiently implemented six processes, they will be able tomanage a well executed and fast implementation. AsAccess Management is the execution of the policies laidout within the Availability and Information SecurityProcesses, the foundations are already laid. This processwill ensure that access is provided to those who areauthorized to have it and will ensure access is restricted tothose who are not. To ensure alignment between theBusiness and IT, there will need to be integration with theHuman Resources department to ensure there are consistent communications with regards to staff identity, start and end dates etc. With regards to informing clients of the breach, yousuggest that the clients affected by the breach must beinformed ASAP. You recommend a formal letter is sentfrom senior management to reassure clients that the situation is being taken seriously and what actions are taking place to ensure this never happens again. You are aware that this could damage the company\\'s reputation, as security is a critical success factor, but feel that the specific clients must be informed by NEB ASAP, as there is a high risk they will be approached by the competitororganization.

C. Your first recommendation is to implement the AccessManagement process as soon as possible. This processwill ensure that access is provided to those who areauthorized to have it and will ensure access is restricted tothose who are not. With regards to informing clients of the breach, yousuggest that only the specifically affected clients areinformed of the breach, via a formal letter sent from seniormanagement to reassure clients that the situation is beingtaken seriously. You suggest that the tone and focus ofthe letter should emphasize the following points: There has been a 'minorly' security breach fault of memberof staff, wholl's employment has now been terminated No data has been 'lost

2024 Latest pass2lead ITILSC-OSA PDF and VCE dumps Download

or changed\\' Sufficient action has been taken to ensure this situationdoes not happen again and NEB would like to assure theirclients that there security and continued confidence is ofthe highest importance.

D. Your first recommendation is to implement the AccessManagement process as soon as possible. You suggestthat as the IT organization has already effectively and efficiently implemented six processes, they will be able tomanage a well executed and fast implementation. This process will ensure that access is provided to those who are authorized to have it and will ensure access is restricted to those who are not.

With regards to informing clients of the breach, yousuggest that all clients need to be informed of the breachand the action being taken to ensure this does not happenagain. You are aware that this could damage thecompany\\'s reputation, but are concerned that if only thespecificallyaffected clients are informed, word will spreadand the entire client base will feel they have beenkept outof the loop on such an important issue and further damageto NEB\\'s reputation will befelt.

Correct Answer: B

#### **QUESTION 2**

Which ITIL process ensures that the IT Services are restored as soonas possible in the case of a malfunction?

- A. Change Management
- B. Incident Management
- C. Problem Management
- D. Service Level Management

Correct Answer: B

#### **QUESTION 3**

Scenario

Brewster\\'s is a toy factory that has been in business for 30 years. The company started with a small family run shop and has grownconsistently over the years. They are now supplying toy storesnationwide and are considered to be the primary supplier of children\\'scollectable novelty erasers.

Brewster\\'s IT department is relatively small (currently 15 staff) but efficient. They have recently employed an IT Manager in an attempt to improve the management of the infrastructure, as well as more effective use of resources and identification of areas for improvement.

The Brewster\\'s management teams do not have a lot of ITknowledge. The newly appointed IT Manager is very ITIL focusedand wants to implement as many ITSM processes as is appropriate there are currently no formal processes in place. On starting with the company the IT Manager completed an internal assessment of the ITinfrastructure ?including staff skills analysis, and collated the results from customer satisfaction

2024 Latest pass2lead ITILSC-OSA PDF and VCE dumps Download

surveys completed over the last 5 years.

The main areas of concern are as follows:

Responses from customer satisfaction survey:

Overall a consistent satisfaction level. However, responses completed during the past 12 months show an increase incustomers who were unsatisfied with call waiting times when contacting the service desk for help with online orders and requests for information.

Customers added the following additional comments:

"Never get to speak to the same person twice when dealing with an Incident number, had to call several times to receive follow up on progress" "Some of the Service Desk staff seem under qualified to deal with my questions about new applications/incidents/service requests"

Results from Staff Skills Analysis:

Staff, in general, have a good knowledge of IT systems and abasic understanding of the business processes and objectives. However, staff are not well informed of upcomingreleases of new or changed services and not given adequate information to relay to the customers.

Staff added the following additional comments:

"Communication between Service Operationdepartments has become inefficient - there are meetings for the sake of meetings, but the importantinformation we need to know to do our day to day jobsis lacking"

"I still don\\'t know what half of the people do, that workin the IT department!"

Results from General IT Infrastructure assessment:

Lack of event monitoring and planning Lack of input from Operational Support departments into Service Design Lack of skill and information sharing across the Operational Support teams with regards to Incident, Problem, Workarounds and Known Error data. Little to no proactive activities being carried out.

Refer to Scenario

Which of the following options would be most suitable to address theissues identified from the Customer Satisfaction Survey?

A. You decide that the first two ITSM processes that need to be implemented are Incident Management and Request Fulfillment. As this will enable formal management and coordination of the Service Desk, and ensure that Incidents and Service Requests are dealt with accordingly, enabling separate logging and monitoring and faster call response times Send a formal memo to all customers, introducing yourself and your new role, thanking them for their valuable feedback and addressing the issues raised in the survey results and how you intend to resolve them.

B. You decide that the first two ITSM processes that need to be implemented are Incident Management and Request Fulfillment. As this will enable formal management and coordination of the Service Desk, and ensure that Incidents and Service Requests are dealt with accordingly, enabling separate logging and monitoring and faster call response times. In addition, you will ensure that the new Incident Manager will ensure the Service Desk is the single point of contact, as

2024 Latest pass2lead ITILSC-OSA PDF and VCE dumps Download

a first priority. This needs to be the focus over the next quarter to ensure that this policy is adopted ASAP, you will suggest reward options to ensure that staff and end users are in no doubt that this is an essential requirement supported by senior management. Send a formal memo to allcustomers, introducing yourself and your new role. Thanking them for their valuable feedback and addressing the issues raised in the survey results and how you intend to resolve them.

- C. The results of this initial assessment are better than you had expected, you do not see any need to change things yet. You are not concerned with the additional comments as the general feedback is that customers are satisfied with the end to end service and that a 100% satisfaction is unrealistic. You will suggest to the Business that more staff is required for the Service Desk to ensure that call waiting times are reduced and that a more detailed and selective criteria is used as part of the selection process to ensure staff are at the correct skill level and competency.
- D. The results of this initial assessment are better than you had expected, you do not see any need to change things yet. You will suggest to the Business that it will be beneficial to complete another initial assessment in one year, after the next Customer Satisfaction Survey is completed, to compare the satisfaction levels and, if required, identify areas for improvement at that stage.

Correct Answer: B

#### **QUESTION 4**

Operations Control refers to?

- A. The managers of the Event and Access Management Processes
- B. Overseeing the monitoring and escalating of IT operational events and activities
- C. The tools used to monitor the status of the IT Network
- D. The situation where the Service Desk manager is required to monitor the status of the infrastructure when Service Desk Operators are not available

Correct Answer: B

#### **QUESTION 5**

Scenario

Vision Media is an international media organization, operating variouslines of business including:

Film Production Television (production and delivery of their own channel in the United States VisionOne) Print media (including newspapers in 15 countries) Online Advertising The organization has recently been restructured, and now iscomprised of the following companies and departments:

Vision Films (production of movies and television shows) VisionOne (television channel) VisionNews (coordinates all of the sub-companies involved in the delivery of printed newspapers, as well as being the centralized source of news information for all company owned media outlets) VisionNet (managing the online and internet businesses) Legal Services Finance and Administration Human Resources Information Technology

The organization is also actively pursuing growth in the online market, and is currently holding discussions with the leading online newsprovider about the possible acquisition of their company. This wouldincrease the overall size of Vision Media by around 15%.

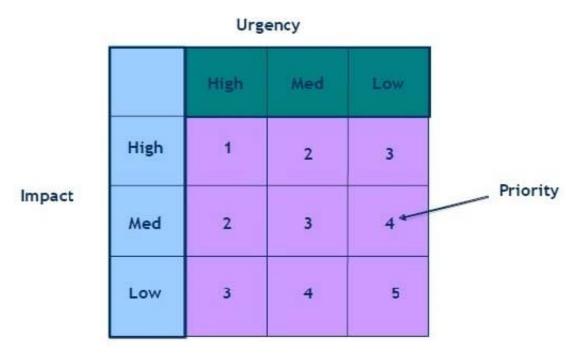

2024 Latest pass2lead ITILSC-OSA PDF and VCE dumps Download

The Information Technology department acts as a Shared ServiceUnit, providing IT Services to all of sub-companies and departments, which complement some of the Internal Service Providers that also exist. The director of Information Technology has realized the need to improve the quality of services offered by implementing ITIL, and has decided to do so using a phased approach. Some of the ServiceDesign and Service Transition processes have already been implemented, and they are now planning the implementation of Service Operation.

While the IT director does have tentative support from the otherdirectors and CEO, budgets for implementing the Service Operationprocesses have not been finalized, and still require a business case to be formally submitted.

Refer to the exhibit.

Sally Robbins, who had previously managed the IT department\\'sService Desk, has now been assigned the role of Incident Manager. To assist in the implementation of the process, Sally has conducted anumber of meetings with IT staff, customers, external suppliers and other relevant stakeholders to identify their requirements. Based on these discussions, Sally has created following impact definitions, which will be used in conjunction to the given urgency to determine the appropriate timescales and effort applied for response and resolution to recorded incidents.

Impact Definition: Low Impact Affects a single user, preventing them from performingnormal work functions A single, non-critical device

or peripheral is unavailable Medium Impact

Multiple users are affected, preventing them fromperforming normal work functions A regular business function is unavailable to part of aor organizational unit department

High Impact

A vital business function is unavailable to an entiredepartment or company owned organization

Major Incident

A vital business function is unavailable to all Vision Media departments and company owned organizations

Example Incidents:

2024 Latest pass2lead ITILSC-OSA PDF and VCE dumps Download

- I. The IT manager of Vision Films detects that their dedicatedVirtual Private Network linking them to Vision Media\\'scorporate IT systems has failed. This has prevented usersfrom accessing or modifying any file, document or systemmaintained by the centralized IT department of Vision Media.
- II. The vice-president of the Finance and Administrationdepartment reports that her laptop keeps rebooting. She hasan important report to complete for the Chief ExecutiveOfficer.
- III. The president of Vision TV is unable to stream high-definitionvideo from a regional office. He requires the regional office\\'sWAN connection to be upgraded to a 14.4 M/bit wirelessmobile network.
- IV. A IT staff member is alerted to the failure of systems provided by Human Resources to all other departments and subcompanies to manage payments and leave for Vision Mediaemployees (and those employed by organizations fully owned by Vision Media)

Which of the following responses provides the correct assignment ofimpact to the above incidents?

- A. High Impact
- II. Medium Impact
- III. Not an incident, should be a Request for Change
- IV. Major Incident
- B. High Impact
- II. Low Impact
- III. Not an incident, should be a Request for Change
- IV. Major Incident
- C. Major Incident
- II. Medium Impact
- III. High Impact
- IV. Major Incident
- D. High Impact
- II. Low Impact
- III. Medium Impact
- IV. Major Incident

Correct Answer: B
