QUESTION 1

You want to install the Knowledge Center User Import Utility. Select the two items that the administrator must provide before you can launch the application.

A. the location (path and folder name) for the content root

B. the name of the server where the KContent root is located

C. the name of the virtual directory where Knowledge Center is located

D. your user credentials for the Knowledge Center

Correct Answer: CD

QUESTION 2

Your training coordinator has asked you to review and update three topics in a large outline, which is maintained by a group of authors. You plan to review while traveling, but you will not have access to the server.

Select the process that enables you to review while traveling without access to the server.

A. Check out the outline and all related documents so you have access to the full outline and all its related documents while you are offline.

B. Do not check out any files because the system has local data storage and after you connect to the server, the changed files will be synchronized.

C. Check out the topics that you need to review and get any other documents you might need.

D. Check out the topics and related documents that you need to review and use the Get command for any other documents you might need.

Correct Answer: D

QUESTION 3

You are the training manager for a medical device company, which operates in a highly regulated industry. One aspect of your job is to ensure that compliance requirements are addressed. Your large UPK content development team works in a multi-user environment, creating documentation and training for 50,000 employees globally. Which three benefits of a multiuser environment and deployment will help you meet compliance requirements?

A. the ability to create role-based learning paths to train your end users

B. the ability to track training on critical transactions with Usage Tracking

C. the ability to provide consistent training and documentation to users globally

D. version control, including the ability to view the history of a document

E. the ability to easily update content and quickly get changes to end users

F. in-application support to speed end-user time to task while reducing errors

Correct Answer: CDE

QUESTION 4

Select the two UPK printed documentation outputs that incorporate all items of the published outline.

A. Business Process Document

B. Training Guide

C. Instructor Guide

D. Presentation

E. JobAid

Correct Answer: BC

QUESTION 5

When the Knowledge Center is configured for single sign-on (SSO), the SSO policies on the SSO server needs to be configured to authenticate and authorize the virtual directories.

Select the Virtual directories that should be configured as "SSO Authenticate and authorize" in the SSO policies.

A. KCenter only

B. KData only

C. KCenter and KData

D. KCenter and KContent

E. KCenter, KData, and KContent

Correct Answer: D
