QUESTION 1

Privileges for using stored routines can be specified at the following levels:

- A. Server-wide
- B. Per database
- C. Per routine
- D. The ability to use stored procedures is not governed by the privilege system.

Correct Answer: ABC

QUESTION 2

Which of the following best describes why InnoDB tables should always have primary keys and why they should be short?

- A. Because InnoDB uses primary keys to locate tables, and shorter keys make quicker lookups.
- B. Because InnoDB uses primary keys to locate table rows, and shorter keys make quicker lookups.
- C. Because InnoDB stores pointers in a log to all the primary keys and shorter keys make this log smaller.

Correct Answer: B

QUESTION 3

Which of the following statements are true regarding wildcards in the host name of an account specification?

- A. The \% character is used to match any number of characters or numbers
- B. The * character is used to match any number of characters or numbers
- C. The _ character is used to match any number of characters or numbers
- D. The . character is used to match any single character or number
- E. Wildcards may be used to match any number of characters at the beginning of the host name or IP address only
- F. Wildcards may be used to match any number of characters at the end of the host name or IP address only
- G. Wildcards may be used to match any number of characters anywhere in the host name or IP address

Correct Answer: AFG

QUESTION 4

When creating a new user account, which of The following are valid ways of specifying the hostname part of the account?

- A. Leaving it unspecified, allowing connections from any host
- B. Using localhost
- C. Using a hostname, such as agric.comp1.com
- D. Using an IP address, such as 100.160.1.47
- E. Using a hostname pattern with wildcards, such as %.comp1.com
- F. Using an IP number with wildcards, as 100.160.1.%
- G. Using an IP number/netmask combination such as 100.160.0.0/255.255.0.0
- H. User accounts do not contain a hostname part

Correct Answer: ABH

QUESTION 5

What will be the results of the following query?

```
mysql> SELECT * FROM CountryLanguage PROCEDURE ANALYSE(10, 256)\G
```

- A. For each column of the CountryLanguage table, the minimum and maximum values will be listed.
- B. For each column of the CountryLanguage table, the average value or average length will be listed.
- C. For each column of the CountryLanguage table, a data type will be suggested that is just large enough to hold the data.
- D. For each column of the CountryLanguage table, the data type will be changed to one that is just large enough to hold the data.
- E. It will result in an error.

Correct Answer: CD
