QUESTION 1

Which VMware product will help ensure the most appropriate operating system, amount of storage and number of vCPUs are assigned when creating a vApp according to a given budget?

- A. vRealize Orchestrator
- B. vRealize Operations
- C. vRealize Business
- D. vRealize Automation

Correct Answer: B

QUESTION 2

An administrator wants to automatically manage virtual machine change requests and services as well as remove virtual machines when they are no longer needed. Which product includes a lifecycle management capability to help you accomplish these tasks?

- A. vRealize Automation
- B. vCenter Server
- C. vRealize Operations
- D. NSX Manager

Correct Answer: B

QUESTION 3

A manager wants to know why traditional usage metering tools are less effective in a private cloud environment than they are in physical environments. What statement provides the best response?

- A. Traditional monitoring tools won't work in a cloud environment.
- B. Traditional metering tools require agents to be installed, which don't work in virtual machines.
- C. Resource usage is based on the overall demand of all virtual machines instead of per server.
- D. This is not true, traditional usage metering tools are still the best choice.

Correct Answer: B

QUESTION 4

A manager is concerned that creating hundreds of identical virtual machines is needlessly taking up too much storage

space. Which vRealize Automation feature will help avoid this issue?

- A. Storage DRS
- B. Snapshots
- C. Templates
- D. Linked Clones

Correct Answer: C

QUESTION 5

A company is discussing the migration of their corporate data to the hybrid cloud and have asked a consultant to provide some justifications for making the move. Which two scenarios best show use cases for a hybrid cloud? (Choose two.)

- A. You have a mixture of physical and virtual servers.
- B. You want to occasionally move data between different corporate private clouds.
- C. You want to periodically offload high demand development test cycles.
- D. You are a small company and do not want to deal with your own datacenter and equipment.

Correct Answer: BC
