**QUESTION 1**

The new billing source system has been registered into Accounting Hub Cloud. The subledger is in active state. At a later date, the business decides to bring in another legacy system (for example, a payment system) for accounting in Accounting Hub.

What two options do you have?

- A. Add this as a new transaction type into existing registered subledger from the user interface.
- B. Register it as a new source system.
- C. Add this as a new transaction typo into existing subledger registration spreadsheet template.
- D. Change the transaction data file.

Correct Answer: AB

QUESTION 2

Which two actions can you accomplish for a registered source system?

- A. Add new event classes through the user interface.
- B. Modify the subledger application name as long as there are no pending accounting entries.
- C. Import the source system registration spreadsheet template multiple times as long as there are no accounting rules created yet.
- D. Revise source Information through the user interface and add more sources.

Correct Answer: CD

QUESTION 3

Given the business use case:

\\New Trucks\\ runs a fleet of trucks in a rental business in the U.S. The majority of the trucks are owned; however, in some cases, \\New Truck\\ may procure other trucks by renting them from third parties to their customers. When trucks are leased, the internal source code is \\L\\. When trucks are owned, the internal source code is \\O\\. This identifies different accounts used for the Journal entry. Customers sign a contract to initiate the truck rental for a specified duration period. The insurance fee is included in the contract and recognized over the rental period. For maintenance of the trucks, the "New Trucks" company has a subsidiary company \\Fix Trucks\\ that maintains its own profit and loss entity. To track all revenue, discounts, and maintenance expenses, \\New Trucks\\ needs to be able to view: total maintenance fee, total outstanding receivables, rental payment discounts, and total accrued and recognized insurance fee income. \\New Trucks\\ and \\Fix Trucks\\ are located in the same country and share chart-of-accounts and accounting conventions.

How many ledgers are required to be set up?

- A. Two primary ledgers

- B. One primary ledger
- C. One primary, one secondary ledger
- D. One primary, one repotting currency ledger

Correct Answer: B

QUESTION 4

After registering a new source system into Accounting Hub and going live for a short period, your customer identified the need to add additional transaction sources. What should you do?

- A. Add new transaction sources from the user interface.
- B. Register another source system that includes these new transaction sources.
- C. Tell them this cannot be implemented.
- D. Add new transaction sources in the current source system registration spreadsheet and re-upload the spreadsheet file.

Correct Answer: A

QUESTION 5

What are all the tabs that are available to be completed in the Register Source System spreadsheet?

- A. Source System and Line Information
- B. Source System and Transaction Information
- C. Source System
- D. Source System, Transaction Information, and Line Information

Correct Answer: D
