**QUESTION 1**

You have created four instances using a single orchestration. Two instances have the High Availability (HA) policy specified as Active, one has the HA policy specified as Monitor, and the fourth has the HA policy specified as None. What can you do?

- A. You can't delete any of the instances.
- B. Delete all of the instances by stopping the orchestration.
- C. Delete only the instances that have the HA policy specified as None or Monitor.
- D. Delete only the instance that has the HA policy specified as None.
- E. Delete only the instance that has the HA policy specified as Monitor.

Correct Answer: D

QUESTION 2

Identify three capabilities of the Oracle Storage Cloud Software Appliance.

- A. it converts any server into an Oracle Storage Cloud Engineered System Appliance
- B. it turns a server into a local mount to Oracle Storage Cloud Service, enabling file-based data movement to the Oracle Storage Cloud
- C. it is a gateway to the Oracle Storage Cloud Service having read and write performance comparable to network-attached storage
- D. it enables asynchronous file-based symmetric replication to Oracle Cloud
- E. it extends end-to-end security encryption and key management using Oracle Key Vault
- F. it provides security with end-to-end encryption with control of the keys and transparent encryption

Correct Answer: CDE

QUESTION 3

After creating an instance from an Oracle-provided Oracle Linux image, which two tasks would you perform to ensure continued SSH access to your instance?

- A. Keep the SSH private key corresponding to the SSH public key specified during instance creation, to use in case the instance is deleted and re-created.
- B. Create at least one additional user with root access on your instance and generate separate SSH keys for this user.
- C. Promptly dispose of the SSH private key corresponding to the SSH public key specified during instance creation.
- D. Disable the SSH key used by the Oracle Public Cloud user to ensure other users can't use the same key.

E. Change the SSH public key in the authorized_keysfile of the Oracle Public Cloud user the first time you log in.

Correct Answer: BC

QUESTION 4
