E. Zip or Postal code

Correct Answer: E

Reference: http://docs.oracle.com/cd/E48549_01/doc.11117/e40733/toc.htm

QUESTION 2

In an ODI package, is it possible to use a tool to purge logs based on the name of the agent that executed the session?

A. No, it is only possible to purge the logs of the sessions that run in a specific period of time.

B. No, it is only possible to purge the logs of the properly ended sessions.

C. Yes, it is possible but you also need to indicate the ODI user that ran the session.

D. Yes, it is one of the parameters available to purge the log.

Correct Answer: D

QUESTION 3

Is it possible to monitor a JEE Agent using a plug in directly into Enterprise Manager Fusion Middleware Control Console?

A. Yes, it is possible to check that an Agent is active or if it has any issues.

B. No, you have to run some dedicated Java scripts in order to monitor the Agent behavior.

C. Yes, it is possible to check that an Agent is active, but you must also install and configure Oracle Tuxedo.

D. No, you can simply check the metadata available using ODI Console as a web application.

Correct Answer: A

QUESTION 4

To load a specific table using ODI, do you need to draw directly in the flow all details about how the different servers involved are connected?

A. Yes, and also specify with variables the passwords for connecting to the data contained in the servers.

B. No, the code will be black box-generated directly by ODI.

C. No, ODI automatically designs the flow and how servers are connected.

D. In the ODI interface palette, choose the more convenient graphic objects to link the involved servers.

Correct Answer: C

QUESTION 5

In an ODI Interface, can filters be added automatically?

A. Yes, if they were reverse-engineered-

B. Yes,if they exist in the datastore definition.

C. No, filters can never be added automatically.

D. No, because each interface instance is unique and different from others.

Correct Answer: D
