QUESTION 5

According to Cisco, which four improvements are the main benefits of the PPDIOO lifecycle approach to network design? (Choose four.)

- A. faster ROI
- B. improved business agility
- C. increased network availability
- D. faster access to applications and services
- E. lower total cost of network ownership
- F. better implementation team engagement

Correct Answer: BCDE

The PPDIOO life cycle provides four main benefits:

+

It improves business agility by establishing business requirements and technology strategies.

+

It increases network availability by producing a sound network design and validating the network operation.

+

It speeds access to applications and services by improving availability, reliability, security, scalability, and performance.
+ It lowers the total cost of ownership by validating technology requirements and planning for infrastructure changes and resource requirements.
