QUESTION 5

An administrator receives an alert that a vRealize Operations (vROps) cluster is running out of disk space.

Which two courses of action can the administrator take? (Choose two.)

- A. Increase the size of the existing virtual disk in each analytics node by exactly the same amount to increase the overall vROps cluster disk capacity.
- B. Add an additional vROps data node, selecting the large t-shirt size.
- C. Deploy an additional vROps data node making sure CPU, memory and disk sizes are identical to the other analytical nodes.
- D. Add an additional virtual disk to each analytics node after shutting down the vROps cluster and shutting down the nodes in the cluster.

Correct Answer: AC
