Questions

1 What is an overlay interface n OTV?

2 The overlav interface is a phvsical interface that connects to the remote edge devices on the overlay network through an associated physical interface on the traipport network.

3 The overlay interface is a logical interface that connects to the remote edge devices on the overlay network through an associated physical interface on the traipport network.

4 The overlay interface is a logical interface that connects to the remote edge devices on the overlay network through an associated logical interface on the traipport network.

The overlay interface is a physical interface that connects to the remote edge devices on the overlay network through an associated logical interface on the traipport network.

Correct Answer:

Questions

1 What is an overlay interface n OTV?

2 The overlay interface is a logical interface that connects to the remote edge devices on the overlay network through an associated physical interface on the traipport network.

3 The overlav interface is a phvsical interface that connects to the remote edge devices on the overlay network through an associated physical interface on the traipport network.

4 The overlay interface is a logical interface that connects to the remote edge devices on the overlay network through an associated logical interface on the traipport network.

The overlay interface is a physical interface that connects to the remote edge devices on the overlay network through an associated logical interface on the traipport network.

The overlay interface is a logical interface that connects to the remote edge devices on the overlay network through an associated physical interface on the transport network. The overlay network consists of one or more logical overlay interfaces that are created on the edge device in each remote site that connects to the physical transport network.

QUESTION 2

Which three items are needed to perform the initial setup for a Cisco Data Center device? (Choose three.)

- A. IP address and network mask
- B. FTP password
- C. Active Directory password
- D. console cable

E. device software licenses

F. admin password to assign to the device

G. SFP+ cables

Correct Answer: ADF

QUESTION 3

Which four components are part of the Cisco Data Center Nexus switching offering? (Choose four.)

A. Cisco 6000 Series Switch

B. Cisco ASR 9000

C. Cisco 1000v Switch

D. Cisco IOS Software

E. Cisco 4500E Switch

F. Cisco NX-OS Software

G. Cisco 6509-E Switch

H. Cisco Fabric Extender

Correct Answer: ACFH

QUESTION 4

Which vPC connection creates the illusion of a single control plane?

A. vPC overlay link

B. vPC peer link

C. vPC keepalive link

D. vPC control link

E. vPC management link

Correct Answer: B

QUESTION 5

Based on a modular approach in network design, what are the two functionalities of the data center core layer? (Choose two.)

- A. high-speed transport
- B. connection between WAN and server farm blocks
- C. access-list checking and filtering
- D. data encryption
- E. NAT

Correct Answer: AB
