**QUESTION 1**

Which Cisco product family can simultaneously implement firewall, VPN, content security, network access control, and services virtualization?

- A. Cisco Catalyst Switches
- B. Cisco Adaptive Security Appliances
- C. Cisco Intrusion Prevention Systems
- D. Cisco ProtectLink Gateways

Correct Answer: B

Among its benefits, Cisco ASA Software: offers integrated IPS, VPN, and Unified Communications capabilities helps organizations increase capacity and improve performance through clustering delivers high availability for high resiliency applications provides firewalling, content security, and network access control. facilitates dynamic routing and site-to-site VPN on a per-context basis

QUESTION 2

Which three options are integration features of Cisco TelePresence? (Choose three.)

- A. Cisco TelePresence leverages the same hardware and management platform as Cisco Cast.
- B. Cisco TelePresence infrastructure uses an architecture that is not based on Cisco Unified Communications.
- C. Cloud-based Cisco TelePresence services can be offered by service providers and strategic partners.
- D. Cisco TelePresence video streams into Cisco WebEx, so remote users can view Cisco TelePresence participants.
- E. Cisco TelePresence uses surveillance media server to provide interoperability with high- definition video systems.
- F. Cisco Cius has seamless integration with Cisco TelePresence System EX Series and offers high- definition video.

Correct Answer: CDF

TelePresence video streaming into WebEx, so remote users can view video of the active TelePresence participants. Cius has support for interoperable high-definition (HD; 720p) video on any standards-based video endpoint

- including Cisco TelePresence Systems and Cisco TelePresence System EX Series endpoints - enterprises can extend video, not just to IT and executive teams, but throughout the organization. References: <http://blogs.cisco.com/>

QUESTION 3

Telepresence and video conferencing have been an increasingly important component of the overall video market.

Which indicator is the best measure of the continued importance of these technologies going forward?

- A. The annual growth rate of the video conferencing market is at least 20 percent.
- B. Generation Y was raised on video, and it represents 17 percent of the world population.
- C. The Cisco long-term growth rate target is 12 percent to 17 percent.
- D. The U.S. Internet traffic annual growth rate is more than 40 percent.

Correct Answer: A

Studies show that the annual growth rate of the video conferencing market more than 20 percent, verifying the importance for video conferencing solutions.

QUESTION 4

Which three services does Cisco provide to customers? (Choose three.)

- A. Cisco focuses solely on the cloud and web-based offerings, enabling endpoints to communicate.
- B. Cisco accelerates the ability of IT to align more closely with the business and how people actually work.
- C. Cisco delivers deployment agility across endpoints and the network, including the cloud, whether on premises or off premises.
- D. Cisco focuses mainly on devices linking endpoints and applications via a common framework.
- E. Cisco delivers borderless experience across all major devices and operating systems.

Correct Answer: BCE

By process of elimination A and D are not true, so B, C, E is correct. Cisco focuses on a variety of products outside of cloud and we based offerings and devices linking endpoints, such as their vast router, switch, and appliance portfolio, along with the actual endpoints themselves such as VOIP phones and conferencing systems.

QUESTION 5

Why is the Cisco Integrated Services Router product line a good choice for customers?

- A. is a point product solution that addresses a single need
- B. provides customers with an opportunity to increase the number of devices in their network
- C. simplifies purchasing because there is only one model to choose
- D. combines multiple services into a single platform and reduces operating costs

Correct Answer: D

Designed for optimal service delivery on a single platform, the Cisco ISR G2 routers give businesses greater power to deploy multiple services "on demand" as business needs dictate- while reducing overall operating costs.
