QUESTION 1

You use Microsoft PPM to manage projects. You plan to add risks and issues to a project. For each of the following statements, select Yes if the statement is true. Otherwise, select No.

Hot Area:

Statement	Yes	No
To add risks and issues, open the project site that is connected to the project. Navigate to the list of risks or issues, and then add risks or issues.	<input type="radio"/>	<input type="radio"/>
To add risks and issues for a project, open the project in Microsoft Project, and then add risks or issues.	<input type="radio"/>	<input type="radio"/>
To add risks and issues for a project, select Issues and Risks in the quick launch menu.	<input type="radio"/>	<input type="radio"/>

Correct Answer:

Statement	Yes	No
To add risks and issues, open the project site that is connected to the project. Navigate to the list of risks or issues, and then add risks or issues.	<input checked="" type="radio"/>	<input type="radio"/>
To add risks and issues for a project, open the project in Microsoft Project, and then add risks or issues.	<input checked="" type="radio"/>	<input type="radio"/>
To add risks and issues for a project, select Issues and Risks in the quick launch menu.	<input type="radio"/>	<input checked="" type="radio"/>

QUESTION 2

You are a project manager using Microsoft PPM,

You need to create a new project that uses one of your company's templates.

What are two ways to achieve the goal? Each correct answer presents a complete solution.

- A. From Microsoft Project, select Enterprise.
- B. In Project Center, select New and then select the desired enterprise project type.
- C. In Resource Center, select New.
- D. From Microsoft Project select Featured.

Correct Answer: AB

QUESTION 3

You are a resource manager in an organization that uses Microsoft PPM for resource management. You manage two teams, one local and one remote. Project managers are instructed to always submit resource requests based on generic

roles instead of named resources. Resource managers replace the generic resources with available named resources.

Project managers must not start work on projects that have generic resources assigned.

You need to replace proposed requests with committed, named resources.

Which three actions should you perform? Each correct answer presents part of the solution.

- A. Open resource requests.
- B. Select both the generic and named resource.
- C. Replace the generic resource with a named resource.
- D. Click Build Team.
- E. Select Replace., and accept and confirm the resource.

Correct Answer: ABD

QUESTION 4

Your company has had several large projects fail due to cost overruns and the lack of available resources. These projects use an enterprise project type named Large IT Project and use a workflow to govern the approval of the projects. The

workflow consists of four phases; Initiate, Plan, Execute, and Close.

You need to use Microsoft PPM to compare the value that a new project provides with the cost of implementing the project.

Which three configuration changes should you make? Each correct answer presents part of the solution.

- A. Navigate to PWA Settings Edit the Large IT Project project type, and in the Available Project Detail Page section, add the Strategic Impact form.
- B. Create a project-level custom field that will be used to enter the total cost of a project
- C. Define your company's strategic drivers, and enter them into the Strategic Impact form.
- D. Create a project-level custom field that will be used to enter the value statements of why this project should be undertaken.
- E. Define your company's strategic drivers and enter them into the driver library.
- F. In PWA Settings, edit and then save the stage information. In the Available Project Detail Page section, add the Strategic Impact.

Correct Answer: BCE

QUESTION 5

You are the Microsoft PPM administrator for a large company. The IT manager uses four business drivers for prioritization. The priority of all four drivers is set at 25 percent.

The IT manager adds an additional business driver that has a priority value set to 30 percent

You need to create a new prioritization that includes the additional business driver.

What should you do?

- A. Create a new calculated prioritization. Select the drivers to priority.
- B. Create a new manual prioritization. Select the correct department, and then select the drivers to prioritize.
- C. Create a new manual prioritization. Select the drivers to prioritize, enter the value for each driver, and then choose to normalize.
- D. Create a new manual prioritization. Select the drivers to prioritize, and then rank the drivers sequentially.

Correct Answer: A
