QUESTION 1

This question requires that you evaluate the underlined text to determine if it is correct.

You need to ensure that an installation of the Microsoft Intune client displays messages during the installation process. You should run "Windows Intune Setup.exe/PrepareEnroll" from an elevated command prompt.

Instructions: Review the underlined text. If it makes the statement correct, select "No change is needed." If the statement is incorrect, select the answer choice that makes the statement correct.

- A. No change is needed.
- B. Windows_Intune_Setup.exe
- C. Windows_Intune_Setup.exe/Extract
- D. Windows_Intune_Setup.exe/Quiet

Correct Answer: B

Just use Windows_Intune_Setup.exe without any arguments and all the client messages will be displayed.

Incorrect answers:

Not A: There is a command line switch that can be used to schedule a task that will attempt to enroll the computer at a later time. This will ensure that the computer image is not enrolled before it has been deployed to the target computer. To

launch a delayed installation use the following command line argument to launch the installation:

```
Windows_Intune_Setup.exe /PrepareEnroll
```

Not C: You can use the Windows_Intune_Setup.exe /Extract command line argument on the Windows_Intune_Setup.exe file to extract both a 32 bit and 64 bit MSI package. Not D: You can use the Windows_Intune_Setup.exe/ Quiet

argument if you wish to suppress the Installation wizard and run it with no user interaction.

QUESTION 2

You are the IT specialist for a small manufacturing company. You are reviewing the Service Level Agreement (SLA) before purchasing a Microsoft Office 365 Business Premium plan. Which guarantee is established in the Microsoft Office 365 Business Premium SLA agreement?

- A. 99.9% system uptime
- B. 24/7 phone support for critical and non-critical issues
- C. automatic archival of all customer data

D. phone support for all installation configuration issues

Correct Answer: A

QUESTION 3

You recently set up Microsoft Intune for your company.

You need to assign a user a tenant role so that the user can reset certain password. You need to achieve this goal without giving the user the ability to change global administrator passwords.

Which two admin roles fulfill this requirement? (Choose two.)

- A. user management administrator
- B. service support administrator
- C. billing administrator
- D. global administrator

Correct Answer: AB

QUESTION 4

This question requires that you evaluate the underlined text to determine if it is correct.

You may restore a Microsoft Office 365 user account within 6 months of deleting the account.

Instructions: Review the underlined text. If it makes the statement correct, select "No change is needed". If the statement is incorrect, select the answer choice that makes the statement correct.

- A. No change is needed.
- B. 30 days
- C. 90 days
- D. 1 year

Correct Answer: B

The user's data is stored for 30 days. When you restore the work or school account within the 30 days, the user account and all associated data are restored.
