QUESTION 1

A financial institution is identified as a business user. AEM/Campaigns/Segmentation rules must be based on the traits/data provided from the back end of the system.

Which two types of information must be captured in the discovery session? (Choose two.)

- A. Whether any traits are combined to establish a segment
- B. Format in which segmentation traits are retrieved
- C. Keys/values for segmentation traits
- D. How back end service is integrated to retrieve customer data

Correct Answer: BD

QUESTION 2

AEM installs default groups and users.

Which two concepts should the architect know about the admin, anonymous, and author users? (Choose two.)

- A. Keep all three users as default
- B. All default accounts should be deleted.
- C. Modifying the anonymous account creates additional security implications.
- D. Change the password for the admin account from the default.

Correct Answer: BC

QUESTION 3

An architect must optimize the performance of the home page of a client's website. The client requires that search engines index the home page content.

The home page must NOT be cacheable because it displays a list of recently shared articles.

This list is generated by using an AEM component that performs a real-time look-up to an API from a third-party company.

Which solution should the architect choose?

- A. Replace the real-time API access with a scheduled job inside AEM that runs every 15 minutes to update the data and trigger a dispatcher cache flush
- B. Replace the AEM component's server-side logic with a JavaScript widget provided by the third party
- C. Cache the home page using the Dispatcher and implement a cron job to remove the cached file every 15 minutes

D. Cache the rest of the home page and deliver the recently shared article list using AJAX

Correct Answer: A

QUESTION 4

An architect must incorporate measures to prevent content grabbing. Which two recommendations should the architect configure? (Choose two.)

- A. Apache Sling POST Servlet
- B. Apache Sling GET Servlet
- C. Dispatcher filter section
- D. Dispatcher allowed Clients section

Correct Answer: BC

QUESTION 5

Which three tasks can users achieve with AEM Dispatcher? (Choose three.)

- A. Provide load balancing
- B. Poll AEM for content invalidation
- C. Secure AEM application
- D. Cache HTML content

Correct Answer: ACD
