QUESTION 1

AEM installs default groups and users.

Which two concepts should the architect know about the admin, anonymous, and author users? (Choose two.)

- A. Keep all three users as default
- B. All default accounts should be deleted.
- C. Modifying the anonymous account creates additional security implications.
- D. Change the password for the admin account from the default.

Correct Answer: BC

QUESTION 2

A multi-national company rolls out its authoring tools and site in English-speaking locations without regard to other languages. An architect must augment the system to facilitate authoring content in French and adapting the resulting tools to enable other languages added at a later date. Which tool allows the architect to manage dictionaries?

- A. I18n
- B. Internationalization Service
- C. Translator
- D. Dictionary

Correct Answer: C

QUESTION 3

A packaged goods company is migrating its current site to AEM. The company has a presence in the US, but is expanding into two other countries within 12 months of launch on AEM.

During which two tasks should the architect consider this expansion goal? (Choose two.)

- A. Site hierarchy definition
- B. Component development
- C. Workflow implementation
- D. Content migration

Correct Answer: BD

QUESTION 4

Which two requirements typically involve integration with a third-party service?

- A. Approval Workflow
- B. Federated Authentication
- C. Coordinate-Based Store Locator
- D. Watermarked Image Generation

Correct Answer: BD

QUESTION 5

A company's news media website becomes unresponsive during an off-peak time. The AEM team investigates and identifies a DoS (Denial of Service) attack.

Which two security measures should the architect use to reduce the chances of another attack? (Choose two.)

- A. Change the passwords for default out-of-the box users (admin, author)
- B. Uninstall all sample content and users that ship out of the box with AEM
- C. Disable the default selectors .feed.xml and .infinity.json
- D. Implement a Dispatcher filter to allow only known selectors

Correct Answer: CD
