QUESTION 1

The network connection speed between the IBM Notes Traveler servers and the IBM Domino mail servers can have a significant impact on the synchronization of the mobile devices. A Notes Traveler administrator performs a simple ping test from the Notes Traveler server to the Domino mail servers to test the speed.

Above what response time can it be expected to cause synchronization problems?

- A. 30 m/s or higher
- B. 50 m/s or higher
- C. 80 m/s or higher
- D. 100 m/s or higher

Correct Answer: B

QUESTION 2

An IBM Notes Traveler administrator wants to allow users to manage their own security, such as `\\Wipe Device\\`, and `\\Deny Access\\`.

What must the administrator do to allow this?

- A. Grant users the [Administrator] role to the Notes Traveler administration database.
- B. Set "User Managed Security" to "Enabled" on the Notes Traveler administration database.
- C. Grant users Editor access to the Notes Traveler administration database so they may edit their own documents.
- D. Grant users Depositor access to the Notes Traveler administration database so they may create a `\\Wipe Device\\` or `\\Deny Access\\` document.

Correct Answer: B

QUESTION 3

Charles wants to determine that his server is tuned properly for the number of concurrent devices. He has modified the Server document on the Internet Protocols > HTTP tab for the "Number active threads" field and the "Maximum number of concurrent network sessions" field.

What will be the result if Charles allocates too many active HTTP threads?

- A. slower sync to the Notes Traveler devices
- B. unnecessary server memory consumption

- C. an incomplete sync to the Notes Traveler devices
- D. errors during syncing to the Notes Traveler devices

Correct Answer: B

QUESTION 4

How can a mobile device management (MDM) solution be configured to work with IBM Notes Traveler?

- A. through an IBM Domino policy
- B. on the mobile device user's IBM Notes client
- C. by installing the MDM on the Notes Traveler server
- D. as a proxy server in front of the Notes Traveler server(s)

Correct Answer: D

QUESTION 5

What is an advantage of using IBM Domino policies over default device preferences when assigning preferences and security settings to devices?

- A. Domino policies are more flexible.
- B. Domino policies are automatically set up for maximum security.
- C. Domino policies can be defined using the IBM Notes Traveler install and setup.
- D. Domino policies can be updated via the Notes Traveler web administration interface.

Correct Answer: A
