QUESTION 1

During a process discovery session, the business subject matter experts and the process analyst have created the following process for a "3rd Party Grant Writing Process":

The business subject matter experts (SMEs) insist that the review after the "Develop" activities will be completed outside of the IBM Business Process Manager 7.5.1 platform. The IBM Business Process Manager 7.5.1 platform will be alerted that the reviews are complete and the process should proceed to the "Archive" activities. How should the BPM analyst adjust the process so that the business requirements can be captured and a BPM Developer can have enough

information to build an executable process?

A. Combine the "Review" milestone and the "Archive" milestone into "Review and Archive"

B. Insert an Exception event on the process flow between "Complete Grant" and \\'Email and Save Grant\\'

C. Add a system swimlane and an activity to receive the review message (placed in new swimlane and the "Review" milestone)

D. Add a swimlane to the process diagram for a "Reviewer" role and an activity to accept the reviews (placed in new swimlane and the \\'Review\\'milestone)

E. Add a swimlane to the process diagram for a "Reviewer" role and an activity to accept the reviews (placed in new swimlane and the \\'Review\\'milestone)

QUESTION 3

During process discovery, the business subject matter experts (SMEs) make the following statement about how the process starts: "Today, our users access the database that stores new orders and copy that information manually onto a request form. This form is passed from one participant to another during the process. In our future state, we would like IBM Business Process Manager V7.5.1 to connect to the database directly, so that we don\\'t have to manually create our request forms." The IT representatives from the client indicate that this should be possible. How should the BPM analyst respond to this?

A. Defer this discussion for the BPM developers.

B. Gather all the technical details for this integration.

C. Capture that the process should start systematically and identify high level inputs to the process.

D. Inform the business SMEs that this is not possible as the process must start with a Human Task.

Correct Answer: C

QUESTION 4

A BPM analyst is creating a process model for requesting a renovation permit. The BPM analyst is using the following description of the first activity:

"One of our municipal office clerks receives a paper permit application from the local resident, an applicant. The clerk first looks up the resident\\'s name and address in our system, then enters the information from the paper application into the

system, and assigns a temporary permit number to the application. When the application entry is complete, the clerk

sends it to a manager to assign it to an adjudicator."
