- A. Credit rules
- B. Overhead rules
- C. Standard Debit rules
- D. Investment-specific Debit rules

Correct Answer: B

QUESTION 2

When you perform an Auto schedule With Publish action:

- A. A tentative schedule is created.
- B. The new schedule replaces the plan of record (POR).
- C. The project remains locked until you manually unlock it.
- D. The Schedule from Finish Date check box is selected by default.

Correct Answer: B

QUESTION 3

Which feature characterizes the Balance Scorecard page portlet?

- A. An Aggregation row that shows the total for the investments contained within a portfolio
- B. A Gantt chart that shows investment data such as the investment status, stage, duration, and completion date
- C. Bubbles that are sized according to the planned cost of an investment and colored according to the investment risk status
- D. Remaining Cost and Remaining Role Allocation columns that help you determine how much of the budget remains and how much additional capacity is required

Correct Answer: C

QUESTION 4

When you define a financial Organizational Breakdown Structure (OBS), which guideline should you follow?

- A. Immediately after you create the Department OBS, add department units.
- B. Do not base an OBS on the enterprises departments or on geographical locations.
- C. Because financial OBS data elements are key to defining the enterprise's financial structure, define these data elements before any others.
- D. If you need to disable access rights after an OBS and financial entity association occurs, do so from the Financial Organizational Structure page.

Correct Answer: C

QUESTION 5

Which action do you typically perform on a Gantt chart?

- A. Add virtual attributes.
- B. Analyze scenario data.
- C. Change the time scale.
- D. Synchronize investments.

Correct Answer: C
