QUESTION 1

Which of the following would you least expect to form part of the analysis of initial tool costs?

- A. Integration with other tools
- B. Learning time required to use the new tool
- C. Tool portability
- D. Evaluation of suitable tools

Correct Answer: C

QUESTION 2

The introduction of reviews and inspections has often failed as a process improvement action.

Identify the THREE most important measures that should be taken to reduce the risk that this test process improvement will fail.

- A. Process ownership and experienced moderators who drive the inspection process.
- B. Management support
- C. Training of those involved
- D. The availability of stands and processes
- E. Usage of a more traditional software development lifecycle
- F. Alignment with software process improvement
- G. Using a reference model, e.g. TMMi

Correct Answer: ABC

QUESTION 3

Which of the following is NOT a typical key challenge for testing in a RAD based development approach?

- A. Re-usable test scripts for (automated) regression testing
- B. Project management and control
- C. No complete requirements specification

D. Time-boxing

Correct Answer: B

QUESTION 4

In addition to introducing the new team member, you have decided to raise motivation.

Which of the measures listed below would be the best measure to take in order to increase the motivation of the team?

A. Provide more time for testing in the schedule

B. Allow people to take some time off

C. Introduce entry criteria to the testing phase

D. Organize a meeting with senior management in which they address the importance of good testing for this project

Correct Answer: D

QUESTION 5

You have been asked to write a testing strategy for the company.

Which statement best explains how risk can be addressed within the testing strategy?

A. A test strategy should address identified generic product risks and present a process for mitigating those risks in line with the testing policy.

B. A test strategy identifies the specific product for a project risk and defines the approach for the test project.

C. A test strategy is derived from the test policy and describes the way risk assessments are performed in projects.

D. A test strategy is the result of a project risk analysis and defines the approach and resources for testing.

Correct Answer: A
