QUESTION 1

An EMC NetWorker administrator notices that clients are being backed up one at a time, even though they are scheduled to start simultaneously.

What may be a cause of this?

- A. Server parallelism is set to 1
- B. There is only one volume labeled
- C. Client parallelism is set to 1
- D. There is only one pool configured

Correct Answer: A

QUESTION 2

An EMC NetWorker server has two user defined pools, Pool A and Pool B. Pool A has its "Clients" attribute set to "Client A" while the other attributes are unset. Pool B has its "Groups" attribute set to "sales" and "Levels" attribute set to "full" and other attributes unset.

If a save set is generated from Client A from the "sales" group using a full level backup, which pool will the data be sent to?

- A. Pool B
- B. Pool A
- C. Bootstrap pool
- D. Default Pool

Correct Answer: A

QUESTION 3

Your Windows environment consists of several EMC NetWorker servers on the same subnet that are responsible for backing up only specific clients for security reasons. You need to change one backup client's "parent" NetWorker server from NWServer-A to NWServer-B.

Which file do you need to change in order to ensure only NWServer-B can back up this client?

- A. \nsr\res\servers
- B. \nsr\res\nsrdb\nsrd
- C. \nsr\mm\nsrim.priv
- D. Networkr.cfg

Correct Answer: A

QUESTION 4

In an EMC NetWorker environment, what is the default retention period for information about completed backups that is contained in the Management Console Database?

- A. 3 months
- B. 6 months
- C. 12 months
- D. 1 month

Correct Answer: D

QUESTION 5

By default, the EMC NetWorker bootstrap reports are generated and sent automatically to the backup administrator. Which configuration change is required to redirect the reports to the printer?

- A. Modify the action attribute of the bootstrap notification
- B. Append all bootstrap information to savegroup completion report
- C. Configure a local standalone device resource
- D. Remote administration permission needs to be configured

Correct Answer: A
