QUESTION 1

During a migration from a Windows server to a VNX for file how should virus scanning for the VNX be configured?

A. Disable virus scanning on the VNX

B. Disable virus scanning on the Windows server

C. Disable scan on read on the VNX

D. Disable virus scanning on the VNX and Windows server

Correct Answer: A

QUESTION 2

You are designing a VNX storage solution for an Oracle database implementation. The VNX is populated with Flash, SAS and NL-SAS drives. The customer has asked you to recommend the optimal disk layout for the Oracle Automated Storage Manager instance disk group.

Which recommendation best conforms to EMC best practices?

A. 8 RAID 1/0 Flash LUNs

B. 4 RAID 1/0 Flash LUNs, 4 RAID 1/0 SAS LUNs

C. 4 RAID 1/0 Flash LUNs, 4 RAID 5 Flash LUNs

D. 4 RAID 1/0 SAS LUNs, 4 RAID 6 NL-SAS LUNs

Correct Answer: A

QUESTION 3

A customer wants to mark an Incremental SAN Copy Session at 12:00 UTC, and start the transfer of data at 20:00 UTC. Their data access pattern consists of small block I/O, with around 80% reads.

Which statement correctly identifies the performance impact on their environment?

A. COFW activity for 8 hours plus the time taken to transfer the data

B. COFW activity for the time taken to transfer the data

C. Tracking activity for 8 hours plus COFW activity for the time taken to transfer the data

D. COFW activity for 8 hours plus tracking activity for the time taken to transfer the data

Correct Answer: A

QUESTION 4

A company needs to create clone LUNs on a VNX storage system. These LUNs will be used by Replication Manager to back up a Microsoft Exchange server database and log LUNs. Where must the clone LUNS be created to have the least impact on the Exchange servers?

A. In a RAID Group shared with another application

B. In the same RAID Group as the Exchange databases

C. In the same RAID Group as the Exchange logs

D. In their own RAID Group

Correct Answer: A

QUESTION 5

You are conducting an analysis of a Celerra system to migrate the data to a new VNX Unified storage system. You want to collect statistical information about CIFS file system activity.

Which "server_stats" statistic type would you use to get the desired information?

A. Family

B. Compound

C. Element

D. Computed

Correct Answer: A
