### QUESTION 1

You work as a Software Developer for ABC Inc. You create a Console application to create multiple satellite assemblies. Which of the following statements about satellite assemblies are true?

Each correct answer represents a complete solution. Choose all that apply.

- A. They do not contain any executable code.
- B. An application can have only one satellite assembly.
- C. The Assembly Linker tool is used to compile .resources files into satellite assemblies.
- D. They are used to deploy language-specific resources for an application.

Correct Answer: ACD

---

### QUESTION 2

You work as a Software Developer for ABC Inc. The company uses Visual Studio .NET 2005 as its application development platform. You are creating an application using .NET Framework 2.0. The application uses serialization to allow users to take an instance of an object and convert it into a format that can be easily transmittable over the network or even stored in a database. You want to provide the base functionality for the common language runtime serialization formatters. Which of the following classes will you use to accomplish the task?

- A. SoapFormatter
- B. FormatterConverter
- C. Formatter
- D. BinaryFormatter

Correct Answer: C

---

### QUESTION 3

All of the following are benefits for query expressions allowed by Language-integrated query except for which one?

- A. Rich metadata
- B. Compile-time syntax checking
- C. Static typing and IntelliSense
- D. Imperative code

Correct Answer: D

---

**QUESTION 4**

You work as a Software Developer for ABC Inc. The company uses Visual Studio.NET 2005 as its application development platform. You are creating an application using .NET Framework 2.0. You are using string datatype in the application to store text based information. You want to match character in a string in such a way that the match must occur at the point where the previous match ended. Which of the following characters will you use to accomplish the task?

- A. \z
- B. \b
- C. \Z
- D. \G

Correct Answer: D

---

**QUESTION 5**

Ricky works as a Software Developer for SoftTech Inc. He creates an XML Web service, named XmlWeb, by using Visual Studio .NET. He wants to publish XmlWeb within the company's intranet. Which of the following actions will Ricky take to publish XmlWeb?

Each correct answer represents a part of the solution. Choose all that apply.

- A. Register XmlWeb in the private UDDI registry.
- B. Use XML Spy to register XmlWeb.
- C. Register XmlWeb in the public UDDI registry.
- D. Build a discovery (disco) document for XmlWeb.

Correct Answer: AD
