QUESTION 1

Which of the following options describes the rules created by selecting the Select Action rule type when creating a personalization rule?

A. Select Action rules allow pages and portlets to be hidden based on conditions expressed in the rule.

B. Select Action rules return items of content from a resource collection based on conditions expressed in the rule.

C. Select Action rules return actions for a portlet based on conditions expressed in the rule.

D. Select Action rules send a personalized email to a set of users that is defined by another rule.

Correct Answer: B

QUESTION 2

Which of the following is FALSE about the theme layout templates.

A. Theme layout templates control the layout and positioning of the content of the current page.

B. iWidgets cannot be added to the theme layout template

C. The author of the layout template defines the HTML fragment markup and CSS for laying out the container and component layout of the page, using the static HTML page container and component microformat to specify containers and portlets to include in the page.

D. Both B and C

Correct Answer: B

QUESTION 3

Hannah is developing a portlet that allows a user to see all the pages in the portal that he or she can access. Which of the following portal models should Hannah use to get the pages that are visible to the specific user who is logged in?

A. Navigation model

B. Content model

C. Navigation Selection model

D. Layout model

Correct Answer: A

QUESTION 4

When creating a new style, you need to add an entry to the items array in the styles.json file. For example:

```
{'label':'change_style_gold','id':'gold.css','url':'css/gold/gold.css',

'thumbnail':ibmCfg.themeConfig.themeRootURI+'/images/changeStyle/goldThumb.gif',

'help':''}
```

What must be done if you want to globalize the display name of this newly added style?

A. Add a key to the bundle defined in styles.json and replace the label value with the key name.

B. Add the localizationPackageName and localizationBundleName to your entry in the items array.

C. Globalization is performed on the browser when the page is rendering so there are no additional steps needed to globalize the styles display name.

D. Add the localizationKeyName attribute to your entry in the items array.

Correct Answer: A

QUESTION 5

Evan wants to develop a portlet to act as a target using Click-to-Action. He wants to develop a client-side click-to-action handler. Which best describes the ways that he can get the source data submitted by the source portlet?

A. He can retrieve the source form and the input inside from the page Document Object Model.

B. He can retrieve the source data from the window.ibm.portal.c2a.event.value global variable.

C. Either of the above.

D. None of the above.

Correct Answer: C
