-  **800,000+** Satisfied Customers

QUESTION 1

Which of the following statements is true? Select the correct answer.

- A. Service agents are event-driven programs that always have published WSDL definitions.
- B. Service agents are event-driven programs that are automatically invoked to perform intermediary processing.
- C. Service agents are event-driven programs that are used only with asynchronous MEPs.
- D. Service agents are not event-driven programs.

Correct Answer: B

QUESTION 2

Identify what is wrong with this statement: "SOAP-based Web services A and B are participating in a runtime transaction that is carried out as per the WS-AtomicTransaction standard. When a message sent by Service A is rejected by Service B due to a violation of a WS-Policy definition expressed as part of the Service B contract, Service A is forced to issue an Abort message, thereby requiring the transaction to be rolled back." Select the correct answer.

- A. WS-AtomicTransaction does not support the rollback of changes that occur during runtime transactions.
- B. WS-Policy definitions are not expressed as part of the service contract.
- C. SOAP-based Web services cannot have policies and cannot participate in runtime transactions because they are limited to the use of a uniform service contract.
- D. There is nothing wrong with this statement.

Correct Answer: A

QUESTION 3

Which of the following statements is true? Select the correct answer.

- A. WS-Coordination establishes a base coordination framework for which WS-Addressing and WS- Routing provide additional protocols and rules.
- B. WS-Coordination establishes a base coordination framework for which XML Schema and WS- Addressing provide additional protocols and rules.
- C. WS-Coordination establishes a base coordination framework for which WS-AtomicTransaction and WS-BusinessActivity provide additional protocols and rules.
- D. WS-Coordination does not establish a base coordination framework. The name of the specification is deceiving as it actually defines a series of generic routing protocols.

Correct Answer: C

QUESTION 4

If Service B is invoked by Service A and then Service B invokes Service C and all of this happens as part of the same service activity, then Service B would be considered: Select the correct answer.

- A. an intermediary
- B. a service agent
- C. an ultimate receiver
- D. an initial sender

Correct Answer: A

QUESTION 5

Which of the following statements is true? Select the correct answer.

- A. Each REST service exposes its own unique technical service contract.
- B. REST services are event-driven programs that do not have service contracts.
- C. REST services only expose a technical service contract when using SOAP messaging.
- D. REST services share a common uniform contract.

Correct Answer: D
