-  **800,000+** Satisfied Customers

**QUESTION 1**

When applying the Service Autonomy principle, runtime autonomy and design-time autonomy are related through the following rule of thumb: "The the amount of design- time autonomy, the the amount of attainable runtime autonomy." Select the correct answer.

- A. lesser, lesser
- B. greater, lesser
- C. greater, greater
- D. lesser, greater

Correct Answer: C

QUESTION 2

The definition of the Service Composability design principle is as follows: "Services are effective composition participants, regardless of the size and complexity of the composition." What is meant by "regardless of the size and complexity of the composition"? Select the correct answer.

- A. It means that services need to be designed so that they can participate in different types of compositions, regardless of what type of composition they are initially delivered for.
- B. It means that services need to be designed for a specific composition with a specific size and level of complexity, regardless of what other compositions may need to use the service for in the future.
- C. It means that the composition must be large and complex, regardless of the size and complexity of the service itself. These two design aspects need to be kept separate so that service and composition can evolve independently.
- D. The definition for the Service Composability principle does not include the statement "regardless of the size and complexity of the composition".

Correct Answer: A

QUESTION 3

When measuring coupling that exists between a service and a service consumer, you can determine the extent of dependency that exists between the service and service consumer. Select the correct answer.

- A. True
- B. False

Correct Answer: A

**QUESTION 4**

Fill in the blanks for the following definition of the Service Discoverability design principle:

"Services are supplemented with communicative metadata by which they can be effectively and ." Select the correct answer.

- A. designed, discovered
- B. discovered, interpreted
- C. discovered, refactored
- D. discovered, deployed

Correct Answer: B

QUESTION 5

Each time our corporate development team makes a change to the service logic it is required to publish a new version of the service contract. Our customers are complaining because their service consumer programs become incompatible with new service contract versions and therefore no longer work. Which of the following service-orientation principles is most likely to help us solve this on-going problem? Select the correct answer.

- A. Service Reusability
- B. Service Statelessness
- C. Service Loose Coupling
- D. Service Autonomy

Correct Answer: C
