**QUESTION 1**

A merchant plans to migrate product data from Magento 1 to Magento Commerce. During your analysis of a merchant's existing product data structure, you notice they have created multiple custom product attributes to manage the translation

of color options across their websites.

You recommend utilizing a single custom product attribute to manage their color options

In addition to setting up the attribute, what must be done?

- A. Change the attribute scope to store view so the values can be managed separately for each language.
- B. Add all possible attribute values in each of the languages to the attribute.
- C. Create different attribute sets, one for each language and associate the attribute with its values to each,
- D. Add a default set of attribute values, and add store view specific labels to both the attribute and its values for the other two languages

Correct Answer: D

---

**QUESTION 2**

After launching a redesigned checkout, your merchant wants to know how well their checkout experience has improved. What Shopping Behavior metric do you share with them?

- A. No Can Addition
- B. Sessions with Add to Can
- C. Sessions with Transactions
- D. Checkout Engagement Percentage

Correct Answer: A

---

**QUESTION 3**

A merchant selling furniture on their Magento site wants to expand their catalog and begin selling televisions. They want to make the technical specifications for each television model visible in tabs on the product page.

What two actions are required?

Choose 2 answers

- A. List the product specifications in the product description
- B. Use the default attribute set and create new attributes as needed

C. Create a new attribute set for televisions,

D. In the product specification attributes, set Visible on Catalog Pages on Storefront to yes.

Correct Answer: CD

---

#### QUESTION 4

A merchant is using Magento to manage inventory. The procurement department needs to see which products in the Clotting attribute set have fewer than 50 items in stock while eliminating all unnecessary columns. How do you do this?

A. Install a 3rd-party module to provide this report

B. Enable the Daily Product Inventory Report email feature

C. Navigate to the Low Stock report and enter the filtering conditions.

D. Create a new product grid view with the necessary filters and column selections

Correct Answer: B

---

#### QUESTION 5

A merchant has set the visibility of a configurable product to Not Visible individually and their variants to Catalog, Search. How is the product family displayed on the product listing page?

A. Only the simple products will display but each will have a unique product detail page

B. The configurable and simple products will display individually but each will have a unique product detail page

C. Only the simple products will display but will share the same product detail-page as the configurable product

D. The configurable and simple products will display individually but each will have the same product detail page

Correct Answer: D
