QUESTION 1

Ken is an IBM Sametime administrator whose Java processes on the Sametime Advanced Server are performing poorly.

What tuning step could Ken take to optimize the Java runtime environment of his Sametime Advanced Server?

- A. Ken needs to increase the number of cache instances from the IBM WebSphere Integrated Solutions Console.
- B. Ken must modify the `jvm.rcp.properties` file and allocate more memory to the system.
- C. Ken needs to increase the minimum and maximum number of Thread Pools from the WebSphere Integrated Solutions Console.
- D. Ken should turn on verbose garbage collection and set the heap size in the Java and Process management section of the WebSphere Integrated Solutions Console.

Correct Answer: B

QUESTION 2

Peter, an IBM Sametime administrator, is having issues with single sign-on (SSO) between the various components of Sametime 9.0.

How should Peter test the configuration to validate SSO is setup properly in the Sametime infrastructure?

- A. Make sure that the Deployment Manager is running.
- B. Make sure that the LDAP server he has federated to the Sametime System Console is started.
- C. Check if he can log into the Sametime Community Server with a Sametime Embedded client or Sametime Connect client.
- D. Log into one of the Sametime 9.0 components to see if he can seamlessly move between them without having to log in or get a new login prompt.

Correct Answer: A

QUESTION 3

What is the maximum number of IBM Sametime Community Servers that can be clustered?

- A. 2
- B. 3
- C. 6
- D. The Sametime Community Server has no limits regarding the number of servers that can be clustered.

Correct Answer: C

QUESTION 4

Jeff automatically pushed updates to his installed clients via the "Sametime update site URL" parameter. Where did Jeff find this parameter?

- A. In a plugin_customization.ini file on the clients
- B. In a Sametime Policy in the stpolicy.nsf on the Sametime Community Server
- C. In the Sametime System Console under Manage Policies > Instant Messaging
- D. In a Desktop policy in the names.nsf on the IBM Sametime Community Server

Correct Answer: B

QUESTION 5

An IBM Sametime administrator needs to update community configuration settings (such as host, loginAtStartup, savePassword and loginByToken).

Which file should he use to successfully perform this action?

- A. sametimeini
- B. managed-settings.xml
- C. plugin_customization.ini
- D. managed-community-configs.xml

Correct Answer: C
