QUESTION 1

During process discovery, the business subject matter experts (SMEs) make the following statement about how the process starts: "Today, our users access the database that stores new orders and copy that information manually onto a request form. This form is passed from one participant to another during the process. In our future state, we would like IBM Business Process Manager V8.0 to connect to the database directly, so that we don't have to manually create our request forms." The IT representatives from the client indicate that this should be possible. How should the BPM analyst respond to this?

- A. Defer this discussion for the BPM developers.
- B. Gather all the technical details for this integration.
- C. Capture that the process should start systematically and identify high level inputs to the process.
- D. Inform the business SMEs that this is not possible as the process must start with a Human Task.

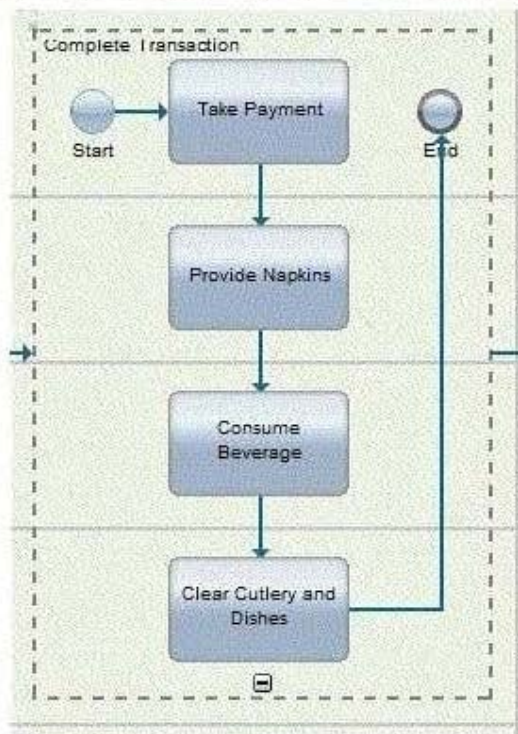

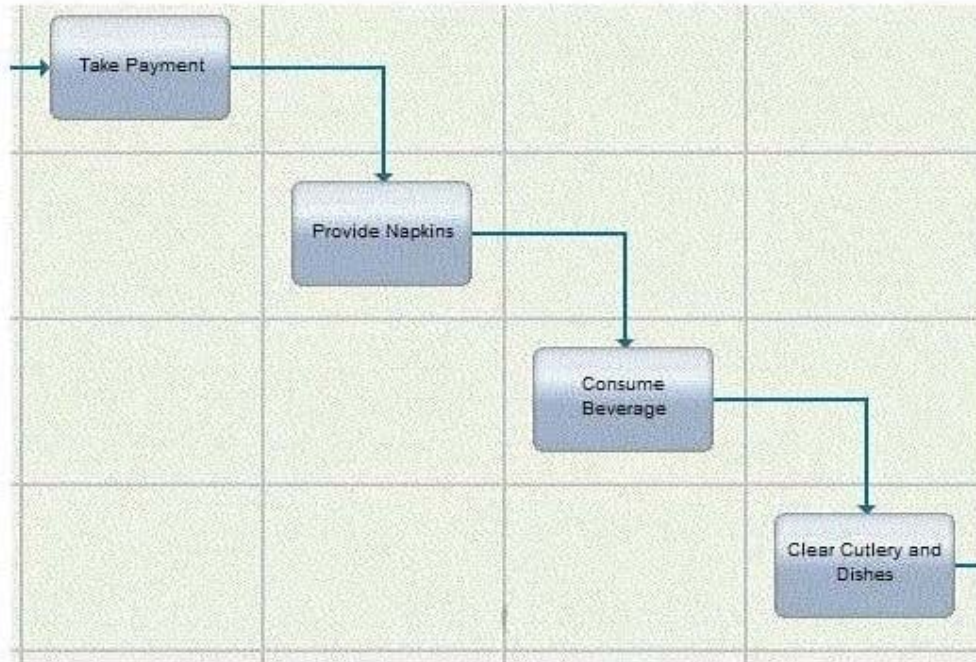

Correct Answer: C

D. Who is the participant when the problem occurs and what other tasks does that participant complete.

Correct Answer: C

QUESTION 5

A BPM analyst is modeling the process for acquiring membership at a club. The BPM analyst interviewed the front office supervisor, who provided the following description of the first activity "Enter Application": "One of our receptionists receives a paper application from a potential client, an applicant. The receptionist first looks up the client's name and address to see if it exists in our system, then enters the information from the paper application into the system, and assigns a membership number to the application. When the application entry is complete, the receptionist sends it to the manager for an initial review." The BPM analyst has created the discovery map and now needs to enter information from the above description into the Details fields in Blueworks Live for the activity "Enter Application". For the activity "Enter Application", who is the Supplier?

- A. Manager
- B. Applicant
- C. Receptionist
- D. Front Office Supervisor
