QUESTION 1

To provide evidence of GDPR compliance, a company performs an internal audit. As a result, it finds a data base, password-protected, listing all the social network followers of the client.

Regarding the domain of the controller-processor relationships, how is this situation considered?

- A. Compliant with the security principle, because the data base is password-protected.
- B. Non-compliant, because the storage of the data exceeds the tasks contractually authorized by the controller.
- C. Not applicable, because the data base is password protected, and therefore is not at risk of identifying any data subject.
- D. Compliant with the storage limitation principle, so long as the internal auditor permanently deletes the data base.

Correct Answer: B
