QUESTION 1

Which protocol is used for communications between a PowerProtect DD appliance and cloud tier to Dell EMC ECS?

- A. HTTP
- B. SSH
- C. FTP
- D. SSL

Correct Answer: A

Reference: <https://www.dell.com/support/kbdoc/en-pk/000020178/data-domain-import-ssl-root-ca-cert-from-load-balancer-for-ecs-cloud-tier-and-best-practices>

QUESTION 2

A backup administrator has enabled the Retention Lock feature on their PowerProtect DD appliance. Over time, the administrator noticed an increase in file system utilization. Upon further investigation, the administrator discovered expired files are still present on the appliance.

What is the most likely reason for this issue?

- A. The atime of the file was set below the minimum retention period
- B. File system cleaning was disabled
- C. Backup application failed to delete the file after expiration
- D. Retention Lock feature was disabled before the expiration date

Correct Answer: C

QUESTION 3

A Spectrum Protect administrator is configuring VTL on PowerProtect DD. Which tape driver type should they select?

- A. L180
- B. L2000
- C. TS3500
- D. L6000

Correct Answer: C

QUESTION 4

What is the preferred method to ensure backups are protected against deletion or corruption?

- A. Dell EMC Cloud Tier
- B. Encryption
- C. Retention Lock
- D. Data Invulnerability Architecture

Correct Answer: A

Explanation:

In order to keep data protection tools from getting overwhelmed by the enormous capacity requirements generated in today's data centers, technologies which enable data to be tiered from primary backup to secondary long term retention/

archive are becoming more attractive. Dell EMC Cloud Tier technology integrates with an Dell EMC ECS Object Storage system (on premises or hosted private cloud) to provide a massively scalable architecture. By leveraging the capabilities

of both of these platforms, IT administrators and architects can continue the path of consolidating critical backup processes, protecting complex environments mixed with unstructured data, database engines, virtual environments, while at the

same time providing the ability to meet long term.

QUESTION 5

What system role is required to create the second security officer for a PowerProtect DD?

- A. limited-admin
- B. security offic
- C. sysadmin
- D. admin

Correct Answer: B

Explanation:

A security role user, who may be referred to as a security officer, can manage other security officers, authorize

procedures that require security officer approval, and perform all tasks supported for user-role users.
