Correct Answer: AB

QUESTION 3

Which of the following is a key consideration when implementing a modern data warehouse with SAP BW/4HANA?

- A. A suitable combination of technology, architecture, and development process is essential.
- B. You should avoid agile development approaches as they come with the risk of insufficient up-front CH performance optimization.
- C. Technology alone will solve all your problems.
- D. Query performance is the most important consideration in a data warehouse implementation.

Correct Answer: A

QUESTION 4

Some advantages of BI Content are: Choose the correct answer(s):

- A. It speeds implementation.

- B. It is preconfigured and end-to-end in scope.
- C. It allows quick prototyping.
- D. It costs additional millions of dollars.

Correct Answer: ABC

QUESTION 5

Should the usage of InfoObjects generally be avoided in a state-of-the-art data model in SAP BW/4HANA?

- A. Yes, all semantics should be modeled in the analytic client and not in SAP BW/4HANA.
- B. Yes, SAP HANA calculation views are much better than InfoObjects.
- C. No, without InfoObjects you cannot define a query in SAP BW/4HANA.
- D. No, InfoObjects are a very semantically rich way to define dimensions.

Correct Answer: D
