DRasS     VRealize Operations     HPE Storage									

# DRAG DROP

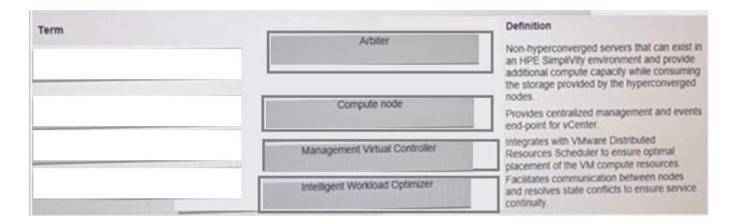

Match HPE SimpliVity term with the definition.

#### Select and Place:

erm	Definition
Arbiter	Non-hyperconverged servers that can exist in an HPE SimpliVity environment and provide additional compute capacity while consuming
Compute node	the storage provided by the hyperconverged nodes. Provides centralized management and events
Management Virtual Controller	end-point for vCenter. Integrates with VMware Distributed. Resources Scheduler to ensure optimal
Intelligent Workload Optimizer	Placement of the VM compute resources. Facilitates communication between nodes and resolves state conflicts to ensure service continuity.

#### Correct Answer:

#### DRAG DROP

Your customer plans to use HPE OneView for VMware vCenter Server to deploy ESXi systems. They created a server profile template that they want to use in HPE OneView.

Put the steps required to configure HPE OneView for VMware vCenter Server on the left into their correct order on the right.

#### Select and Place:

Steps		Answer Area	
Add HPE OneView credentials to the vCenter Server and create OS Deployment Plan.	]		
Add vCenter Server to HPE OneView for VMware vCenter Server			
Deploy new ESXI systems using vCenter Server Interface.			$\sim$
Upload HPE-friendly ESXi image.			(^)
correct Answer:		Answer Area	-
		Answer Area	-
correct Answer:		Answer Area Add vCenter Server to HPE OneView for VMware vCenter Server	
correct Answer:		Add vCenter Server to HPE OneView for VMware vCenter	
correct Answer:		Add vCenter Server to HPE OneView for VMware vCenter Server	0

#### DRAG DROP

Match HPE SimpliVity team with the definition.

#### Select and Place:

	Definition
	Non-hyperconverged servers that can exist in an HPE Simpli/Vity environment and provide additional compute capacity while consuming the storage provided by the hyperconverged nodes.
	Provides centralized management and events end-point for vCenter.
B	Integrates with VMware Distributed Resources Scheduler to ensure optimal placement of the VM compute resources. Facilitates communication between nodes and resolves state conflicts to ensure service
	3

# Correct Answer:

Term		Definition
	Arbiter	Non-hyperconverged servers that can exist in an HPE SimpliVity environment and provide additional compute capacity while consuming the storage provided by the hyperconverged nodes.
	Compute node	Provides centralized management and events end-point for vCenter.
B	Management Virtual Controller	Integrates with VMware Distributed Resources Scheduler to ensure optimal placement of the VM compute resources.
	Intelligent Workload Optimizer	Facilitates communication between nodes and resolves state conflicts to ensure service continuity.

#### **QUESTION 5**

# DRAG DROP

After HPE Superdome Flex deployment and nPar setup, you need to verify health status of HPE Superdome Flex components.

Put the steps on the left into the coned order on the right to perform this task.

Select and Place:

-

Enter show health command.	
Confirm health status.	
Open SSH client.	
Open session to RMC.	

# Correct Answer:

1	Open SSH client.
2	Open session to RMC.
3	Enter show health command.
4	Confirm health status.
