QUESTION 1

You are about to restore the HiRDB database on a Hitachi Command Suite (HCS) Windows server. But first, you must stop the HCS services. How is this accomplished?

A. Use the Windows service panel from Computer Manager.

B. Use the HCS GUI.

C. Use the hcmdssrv command.

D. Use the hcmdsservices command.

Correct Answer: C

QUESTION 2

You are configuring external storage with Hitachi Device Manager on a VSP. What happens when you set the Cache Mode parameter to Enable?

A. After receiving the data into its cache memory, the VSP signals the host that an I/O operation has completed and then asynchronously destages the data to the external storage system.

B. After receiving the data into its cache memory, the VSP signals the host that an I/O operation has completed only after it has synchronously written the data to the external storage system.

C. The VSP will always use its cache for every operation.

D. The VSP will always use the cache in the remote storage system for every operation.

Correct Answer: A

QUESTION 3
