QUESTION 1

The team is making important decisions when assessing the initiative they are working on. Feedback received from the Delivery Horizon informs:

A. Priority and sequencing of solution components

B. Identification of reporting requirements

C. Suggestions for team process continuous improvement

D. How to build the required solution components

Correct Answer: A

QUESTION 2

The delivery team is reviewing information that starts with a broad view of the solution components and drills down to a level of granularity, including acceptance criteria, that supports solution build activities. The team is using the following technique:

A. Story elaboration

B. Real options

C. Detailed story

D. Backlog management

Correct Answer: A
