QUESTION 1

You are implementing an MPLS-based WAN environment to connect remote sites to the corporate headquarters (HQ). However, the service provider at the HQ location does not provide service at the location of one of the remote sites.

Which statement is true in this scenario?

- A. A dedicated leased line will need to be used to connect to the remote site.
- B. A circuit can be bridged across multiple service providers for end-to-end connectivity.
- C. A public WAN circuit can be provisioned over the Internet that will provide the same level of service.
- D. A hub site in a location where both service providers have a presence will need to be deployed.

Correct Answer: B

QUESTION 2

You are designing a multi-site data center environment with data center interconnects between sites. Which two statements are true in this scenario? (Choose two.)

- A. VPLS can be used to interconnect the multiple sites.
- B. EVPN with VXLAN can be used to interconnect the multiple sites.
- C. The data centers must be connected with a full mesh design.
- D. All data centers must be in the same Layer 2 broadcast domain and subnet.

Correct Answer: AB

QUESTION 3

What are two ways that allow BGP route reflectors to advertise more optimal IGP next hops? (Choose two)

- A. Use BGP-ORR.
- B. Use SPRING.
- C. Implement route reflectors at each POP.
- D. Implement a centralized route reflector.

Correct Answer: AD

QUESTION 4

Your team manages a WAN consisting of multiple customer MPLS tunnels. You are asked to design an SDN WAN solution capable of signaling LSPs to avoid nodes or links before they are removed from the network for service.

Which Juniper Network's SDN WAN solution satisfies these requirements?

- A. NorthStar Controller Bandwidth Calendaring
- B. NorthStar Planner Path Design
- C. NorthStar Planner Failure Simulation
- D. NorthStar Controller Maintenance Mode

Correct Answer: B

QUESTION 5

Which management platform automates and simplifies the management of Juniper Networks switching, routing, and security products?

- A. Junos Space
- B. Juniper Secure Analytics
- C. Junosphere
- D. Junoscope

Correct Answer: A
