QUESTION 1

Click the Exhibit button.

```
policy allow-all {
        match {
                source-address any;
                destination-address any;
                application any;
        }
        then {
                permit {
                        application-services {
                                idp;
                                utm-policy wf-policy_websense-home;
                                application-firewall {
                                        rule-set demo-tracking_1;
                                }
                        }
                }
                log {
                        session-init;
                        session-close;
                }
        }
}
```

According to the policy shown in the exhibit, which application-services traffic will be processed first?

A. the application traffic matchings the IDP rules

B. the application traffic matchings the utm-policy log rule set

C. the application traffic matchings the utm-policy wf-policy_websense-home rules

D. the application traffic matchings the application-firewall rule-set demo-tracking_1 rule

Correct Answer: A

QUESTION 2

Click the Exhibit button.

```
[edit]
user@host# show security policies from-zone internet to-zone dmz
policy dmz-poll {
    match {
        source-address any;
        destination-address any;
        application any;
    }
    then {
        permit {
            application-services {
                idp;
            }
        }
        log {
            session-close;
        }
    }
}

[edit]
user@host# show security idp
idp-policy idp-poll {
    rulebase-ips {
        rule r1 {
            match {
                attacks {
                    predefined-attack-groups "HTTP All";
                }
            }
            then {
                action {
                    ignore-connection;
                }
            }
        }
        rule r2 {
            match {
                attacks {
                    predefined-attack-groups "DNS All";
                }
            }
            then {
                action {
                    close-server;
                }
                ip-action {
                    ip-notify;
                }
            }
        }
    }
}
```

![Pass2Lead](https://Pass2Lead.com)
Referring to the configuration shown in the exhibit, which statement explains why traffic matching the IDP signature DNS:OVERFLOW:TOO-LONG-TCP-MSG is not being stopped by the SRX Series device?

A. The security policy dmz-pol1 has an action of permit.

B. The IDP policy idp-pol1 is not configured as active.

C. The IDP rule r2 has an ip-action value of notify.

D. The IDP rule r1 has an action of ignore-connection.

Correct Answer: B

QUESTION 3

Click the Exhibit button.

```
[edit]
user@host# show security application-tracking
first-update-interval 1;

[edit]
user@host# show security zones security-zone trust
tcp-rst;
host-inbound-traffic {
        system-services {
                all;
        }
}
interfaces {
        ge-0/0/2.0;
}
application-tracking;
```

Referring to the exhibit, how many AppTrack logs will be generated for an HTTP session lasting 12 minutes?

A. 4

B. 2

C. 1

D. 3

Correct Answer: A

QUESTION 4

Click the Exhibit button.

```
[edit security utm]
user@host# show
custom-objects {
        url-pattern {
                allow {
                        value "user@example.com";
                }
                reject {
                        value "user@example.com";
                }
        }
}
feature-profile {
        anti-spam {
                address-whitelist allow;
                address-blacklist reject;
                sbl {
                        profile AS {
                                sbl-default-server;
                                spam-action block;
                                custom-tag-string SPAM;
                        }
                }
        }
}
```

Referring to the exhibit, which statement is true?

A. E-mails from the user@example.com address are marked with SPAM in the subject line by the spam block list server.

B. E-mails from the user@example.com address are blocked by the spam list server.

C. E-mails from the user@example.com address are blocked by the reject blacklist.

D. E-mails from the user@example.com address are allowed by the allow whitelist.

Correct Answer: D

QUESTION 5

Which AppSecure feature identifies applications that are present in traffic?

![Pass2Lead](https://Pass2Lead.com)
A. AppID

B. AppTrack

C. AppFW

D. AppQoS

Correct Answer: A
