**QUESTION 1**

Click the Exhibit button.

```
user@hq# show security ike
...
gateway ike_gtw-branch {
  ike-policy ike-policy-branch;
  dynamic hostname branch.abc.com;
  external-interface ge-0/0/0;
  local-address 203.0.113.1;
}
```

The IKE policy and proposal are configured properly on both devices as shown in the exhibit. Which configuration snippet will complete the IKE configuration on the branch SRX Series device?

- A. [edit security ike]  
user@srx# show gateway ike\_gtw\_hq  
ike-policy ike-policy-hq;  
dynamic hostname branch.abc.com;  
external-interface ge-0/0/0;  
local-address 203.0.113.2;
- B. [edit security ike]  
user@srx# show gateway ike\_gtw\_hq  
ike-policy ike-policy-hq;  
dynamic hostname hq.abc.com;  
external-interface ge-0/0/0;  
local-address 203.0.113.2;
- C. [edit security ike]  
user@srx# show gateway ike\_gtw\_hq  
ike-policy ike-policy-hq;  
local-identity hostname hq.abc.com;  
external-interface ge-0/0/0;  
local-address 203.0.113.2;
- D. [edit security ike]  
user@srx# show gateway ike\_gtw\_hq  
ike-policy ike-policy-hq;  
local-identity hostname branch.abc.com;  
external-interface ge-0/0/0;  
local-address 203.0.113.2;

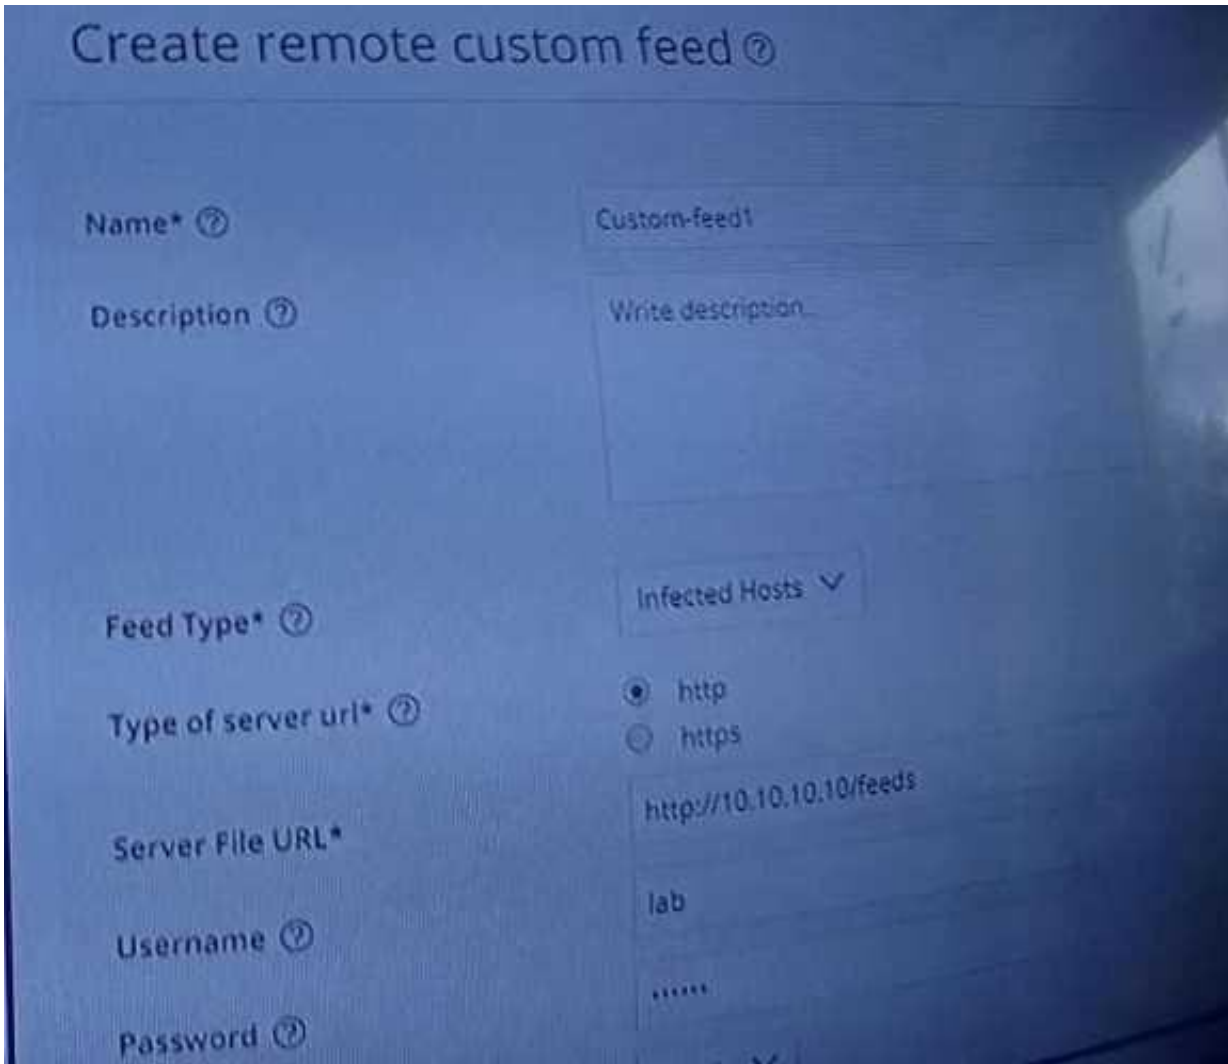

- A. Option A  
B. Option B  
C. Option C  
D. Option D

Correct Answer: D

## QUESTION 2

Exhibit.

Referring to the exhibit, which two statements are true? (Choose two.)

- A. Juniper Networks will not investigate false positives generated by this custom feed.
- B. The custom infected hosts feed will not overwrite the Sky ATP infected host's feed.
- C. The custom infected hosts feed will overwrite the Sky ATP infected host's feed.
- D. Juniper Networks will investigate false positives generated by this custom feed.

Correct Answer: AC

### QUESTION 3

You must implement an IPsec VPN on an SRX Series device using PKI certificates for authentication. As part of the implementation, you are required to ensure that the certificate submission, renewal, and

retrieval processes are handled automatically from the certificate authority.

In this scenario, which statement is correct.

- A. You can use CRL to accomplish this behavior.
- B. You can use SCEP to accomplish this behavior.
- C. You can use OCSP to accomplish this behavior.
- D. You can use SPKI to accomplish this behavior.

Correct Answer: B

Certificate Renewal The renewal of certificates is much the same as initial certificate enrollment except you are just replacing an old certificate (about to expire) on the VPN device with a new certificate. As with the initial certificate request, only manual renewal is supported. SCEP can be used to re-enroll local certificates automatically before they expire. Refer to Appendix D for more details.

---

#### QUESTION 4

You are not able to activate the SSH honeypot on the all-in-one Juniper ATP appliance. What would be a cause of this problem?

- A. The collector must have a minimum of two interfaces.
- B. The collector must have a minimum of three interfaces.
- C. The collector must have a minimum of five interfaces.
- D. The collector must have a minimum of four interfaces.

Correct Answer: D

#### QUESTION 5

You have set up Security Director with Policy Enforcer and have configured 12 third-party feeds and a Sky ATP feed. You are also injecting 16 feeds using the available open API. You want to add another compatible feed using the available open API, but Policy Enforcer is not receiving the new feed.

What is the problem in this scenario?

- A. You must wait 48 hours for the feed to update
- B. You cannot add more than 16 feeds through the available open API
- C. You have reached the maximum limit of 29 total feeds
- D. You cannot add more than 16 feeds with the available open API

Correct Answer: C
