**QUESTION 1**

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are a Dynamics 365 for Field Service system administrator.

You are configuring a new instance of Dynamics 365 for Field Service. The organization needs to accurately capture the cost of work order bookings.

Solution: You implement the following configuration changes:

- 1) Create Resource Pay Types for regular, holiday, overtime, travel, and breaks.
- 2) Assign an Hourly Markup percentage to each Resource Pay Type.
- 3) Assign Resource Pay Types to the applicable Pay Type.
- 4) Create Business Closures.
- 5) Create Bookable Resources with Hourly Rates and Work Hours.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: A

QUESTION 2

You are entering products and services into Dynamics 365 CE Field Services.

You need to ensure that your field technicians can use the products when completing work orders.

Which two field service product types should you configure to allow your technicians to add work order products? Each correct answer presents a complete solution.

- A. Product
- B. Non Inventory
- C. Inventory
- D. Service

Correct Answer: CD

QUESTION 3

You work for a recycling company that provides customers with large compactor units to collect their recyclable materials. The compactor units are comprised of two separate components: a container to collect the recyclable materials and a

separate component that compacts the recyclable materials to make them easier to transport.

These containers are expensive, and the components tend to break down frequently, requiring ongoing maintenance and repairs.

You need to easily track the containers that your company has at each client location and maintain a service history for each of the sub-components.

- A. Configure the customer asset records hierarchically, and maintain service history at the sub-component level.
- B. Configure the customer inventory records individually, in order to maintain the service history at the parent component level.
- C. Configure the customer inventory records in a hierarchy, and maintain service history at the sub-component level.
- D. Configure the customer asset records hierarchically, and maintain service history at the service account level.

Correct Answer: A

QUESTION 4

Your company processes a large number of work orders each day. The company wants to ensure the high priority work orders are dealt with immediately.

You need to configure the schedule board so that bookings are easily visible to the dispatchers.

How can you configure Dynamics Field Services to increase booking visibility?

- A. Configure a work order type for high priority issues, to help categorize high priority work order records.
- B. Configure an Incident type for high priority incidents on work order records.
- C. Configure the status color for a booking status record, to identify high priority work order records.
- D. Configure a priority record to allow you to identify high priority work order records.

Correct Answer: C

QUESTION 5

You are a Dynamics 365 Field Service dispatcher using the Scheduling Assistant function.

One of your customers, Adventure Works, does not want one of your resources to be scheduled to work orders going forward. The resource must be able to be scheduled for other accounts.

How can you achieve this goal?

- A. Create a Requirement Resource Preference record for the resource. Set the Preference Type to Restricted and Cascade to No.
- B. Create a Requirement Resource Preference record for the resource. Set the Preference Type to Restricted and Account to Adventure Works.
- C. Select Load the Default Filters on the Schedule Board.
- D. Create a Requirement Resource Preference record for the resource.

Correct Answer: B
