QUESTION 1

You need to track the serial number of the items your company produces. The serial numbers must only be entered during the issue process.

What should you create?

- A. A tracking dimension group that has only the Active setting enabled
- B. A tracking dimension group that has only the Active in sales process setting enabled
- C. A tracking dimension group that has the Active setting enabled and the Blank receipt allowed setting enabled
- D. A tracking dimension group that has the Active in sales process setting enabled and the Blank issue allowed setting enabled

Correct Answer: B

*

The serial number tracking feature is configured for the tracking dimension group setup. You can create a tracking dimension group by clicking Inventory management -> Product information management -> Tracking dimension groups. You can create a new tracking dimension group and select the "Active in sales process" check box for Serial number. The following image shows an example of this configuration.

*

Blank issue allowed

Select this check box to indicate that the dimension is not specified when physical issues are updated.

Name	Active	Active in sales process	Primary stocking	Blank receipt allowed	Blank issue allowed	Physical stock
Batch number	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Serial number	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Owner	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Stock profile	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
GTD number	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

You can choose to tick 'Blank issue allowed' or not. This means that you can define if you require the Serial number to be recorded or if it will be optional.

QUESTION 2

You send a sales quotation to a customer named Contoso, Ltd.

You have another customer named Lit ware, Inc.

Lit ware has a trade agreement in place, which includes two of the items in the sales quotation that was sent to Contoso.

You plan to copy the sales quotation to create a sales quotation for Lit ware.

You need to ensure that the sales quotation for Lit ware adheres to the trade agreement you have with Lit ware. Which option should you select in the copy quotation function?

- A. Copy precisely
- B. Recalculate price
- C. Copy charges
- D. Delete quotation lines

Correct Answer: D

Copy project quotations [AX 2012]

Use the following procedure to copy all or part of a project quotation.

1.

Click Project management and accounting > Common > Quotations > Project quotations.

2.

Select or open a project quotation.

3.

On the Action Pane, on the Project quotation tab or Quotation tab, in the Copy group, click From all.

4.

Under Setup, at the top of the Copy from all form, select one or more of the following options:

Select the Copy precisely check box to copy all dimensions, sales tax, and ledger o accounts to the new project quotation. Delivery dates are not copied. Select the Delete quotation lines check box to delete any project quotation lines in the o

new project quotation before you copy project quotation lines from this form. Select the Copy quotation header check box to copy information from the selected o

project quotation to the new project quotation.

Etc.

QUESTION 3

You plan to create multiple bill of materials (BOM) versions.

What is the maximum number of BOM versions that can be approved for the same product?

- A. One inactive version
- B. An unlimited amount of active versions
- C. One active version
- D. An unlimited amount of versions, regardless of the activation status

Correct Answer: D

Multiple active BOM and route versions can exist at the same time, as long as their dates do not overlap. This enables you to adjust the BOM's composition of products.

QUESTION 4

You need to calculate the delivery date for a transfer order automatically based on the distance between warehouses. What should you configure?

- A. Lead times
- B. Transport times
- C. Delivery schedules
- D. Warehouse calendars

Correct Answer: A

About delivery dates [AX 2012]

The delivery date is determined by several factors. The earliest delivery date is based on the sales lead time plus the transport time. Working hours are also considered. The sales lead time is the time that is spent between creating the sales

order and shipping the items. After you set up all the relevant parameters, you can select from a list of available ship dates and receipt dates.

QUESTION 5

You need to configure commissions to be calculated on sales, only after all discounts are taken on the line items of a sales order. What should you use?

- A. The Sales order journal
- B. The Price/discount agreement journal
- C. The Commission percentage field
- D. The Discount field

Correct Answer: D

Commission calculation (form) [AX 2012]

Field: discount

Specify whether the calculation of the commission for the individual invoice line will be based on the gross line amount (Before line discount) or on the net line amount (After line discount). If you select After total discount, any end discount is

deducted from the total commission that is calculated after the line discount.

Incorrect:

Not C: Field: Commission percentage

Specify the percentage base with which to calculate the amount of the commission. Together with the calculation method in the Discount, the percentage basis entered here calculates the size of the commission.
