-  **365 Days** Free Update
-  **800,000+** Satisfied Customers

**QUESTION 1**

You create a duty to maintain customer master information.

You need to identify to which elements you can add the duty.

Which two elements should you identify? Each correct answer presents a complete solution.

- A. Process Cycles
- B. Policies
- C. Permissions
- D. Privileges
- E. Roles

Correct Answer: CD

Add or modify the content of the privilege or duty.

\*

(C) To add permissions to a duty or privilege, click Add... to open the Add permissions to privilege form.

\*

(D) To add an existing privilege to a duty, right-click the privilege in the left pane, and then click Copy. Right-click the duty, and then click Paste.

Reference: Create or modify a security privilege, duty, or process cycle [AX 2012]

---

**QUESTION 2**

You need to replace a value from a specific position of a container Which function should you use?

- A. ConDel
- B. ConPoke
- C. ConFind
- D. ConNull

Correct Answer: B

ConPoke modifies a container by replacing one or more of the existing elements.

Incorrect:

Not A: ConDel removes the specified number of elements from a container.

Reference: conPoke Function [AX 2012]

---

### QUESTION 3

A table named Table 1 has a string field named Account Num.

You have an instance of Table I named tableI.

You need to print the value of Account Num to the info log.

Which code segment should you use?

- A. Info (tableI. Get Account Num ( ));
- B. Info (tableI Account Num());
- C. Info (int2str (tableI. Account Num));
- D. Info (tableI. Account Num);

Correct Answer: D

Just reference using the standard tablename.tablefield syntax.

---

### QUESTION 4

You have three tables named Table I, Table2, and Table3. Table2 and Table3 extend from Table I. You define a method on Table2 and you define a field on Table I. You need to identify on which tables the field and the method will be available. Which two options should you identify? Each correct answer presents part of the solution.

- A. The field will be available on Table I only.
- B. The field will be available on Table I, Table2, and Table3.
- C. The method will be available on Table2 and Table3 only.
- D. The method will be available on Table2 only.
- E. The method will be available on Table I, Table2, and Table3.

Correct Answer: BD

A table can extend from or derive from another table. Each table has the SupportInheritance property and the Extends property, which together control table inheritance. Reference: Table Inheritance Overview [AX 2012]

---

### QUESTION 5

You work in a shared development environment. You frequently use private projects. Which statement accurately describes the private projects?

- A. Changes made to the objects in the private projects are visible only to the user who creates the projects.

- B. Private projects can have only one version in source control.
- C. Other users can be granted access to the private projects by using security roles.
- D. Private projects are visible only to the user who creates the projects.

Correct Answer: D

A project is either private or shared. Private projects are only available to the user who created them. Shared projects are available to all users and can be used as a tool for work groups to manage their work. Reference: MorphX Development Projects [AX 2012]
