QUESTION 1

Which statement about the firewall policy authentication timeout is true? Response:

- A. It is a hard timeout. The FortiGate removes the temporary policy for a user's source IP address after this times expires.
- B. It is a hard timeout. The FortiGate removes the temporary policy for a user's source MAC address after this times expires.
- C. It is an idle timeout. The FortiGate considers a user to be idle if it does not see any packets coming from the user's source MAC address.
- D. It is an idle timeout. The FortiGate considers a user to be idle if it does not see any packets coming from the user's source IP.

Correct Answer: D

QUESTION 2

How does FortiGate select the central SNAT policy that is applied to a TCP session? Response:

- A. It selects the SNAT policy specified in the configuration of the outgoing interface.
- B. It selects the first matching central-SNAT policy from top to bottom.
- C. It selects the central-SNAT policy with the lowest priority.
- D. It selects the SNAT policy specified in the configuration of the firewall policy that matches the traffic.

Correct Answer: B

QUESTION 3

You have configured the following log settings on the Log Settings page. Which configurations are now required to generate log messages on traffic coming through your network?

(Choose two.)

Response:

- A. Enable Log Allowed Traffic on your firewall policy.
- B. Enable Local Traffic Log on the Log Settings page.
- C. Enable Historical FortiView on the Log Settings page.
- D. Enable a security profile on your firewall policy.
- E. Enable Capture Packets on your firewall policy.

Correct Answer: AB

QUESTION 4

Which of the following statements about web caching are true?

(Choose two.)

Response:

- A. Web caching slows down web browsing due to constant read-write cycles from FortiGate memory.
- B. When a client makes a web request, the proxy checks if the requested URL is already in memory.
- C. Only heavy content is cached, for example, videos, images, audio and so on.
- D. Web caching is supported in both explicit and implicit proxy.

Correct Answer: BD

QUESTION 5

When using firewall policy NAT, which statements are true regarding virtual IP (VIP)?

(Choose two.)

Response:

- A. The default type is static NAT, which applies one-to-one mappings for incoming and outgoing connections.
- B. The static NAT VIP can be restricted to forward only certain ports.
- C. FortiGate does not respond to ARP requests for VIP, as ARP responses are non configurable for VIP.
- D. The VIP is selected in the firewall policy source address field.

Correct Answer: AB
