QUESTION 1

Refer to the following exhibit:

Which of the following statements are true based on this configuration? (Choose two.)

```
config system global
set workspace-mode normal
end
```

- A. The same administrator can lock more than one ADOM at the same time
- B. Ungraceful closed sessions will keep the ADOM in a locked state until the administrator session times out
- C. Unlocking an ADOM will submit configuration changes automatically to the approval administrator
- D. Unlocking an ADOM will install configuration automatically on managed devices

Correct Answer: AB

QUESTION 2

- A. port2
- B. virtual-wan-link
- C. port1
- D. auto-discovery

Correct Answer: B

QUESTION 3

View the following exhibit.

The screenshot shows the FortiManager interface with three main sections:

- Device Manager:** Shows a list of managed FortiGate devices. A callout box labeled "Managed FortiGate devices" points to the list.
- Policy Packages:** Shows the configuration for an IPv4 Policy. A callout box labeled "Installation targets" points to the "Installation Targets" section.
- Table:** A table showing the installation targets for the policy package. A callout box labeled "Policy Package" points to the table.

| Seq.# | Install On | Name | From | To |
|-------|---------------------------|---------------|-------|-------|
| 1 | Remote-FortiGate(Student) | Ping_Access | port3 | port1 |
| 2 | Local-FortiGate(root) | Web | port3 | port1 |
| 3 | Installation Targets | Source_Device | port3 | port1 |

Which one of the following statements is true regarding installation targets in use Install On column?

- A. The Install On column value represents successful installation on the managed devices
- B. Policy seq#3 will be installed on all managed devices and VDOMs that are listed under Installation Targets
- C. Policy seq#3 will be installed on the Trainer[NAT] VDOM only
- D. Policy seq#3 will be not installed on any managed device

Correct Answer: B

QUESTION 4

What configuration setting for FortiGate is part of a device-level database on FortiManager?

- A. VIP and IP Pools
- B. Firewall policies
- C. Security profiles

D. Routing

Correct Answer: D

QUESTION 5

An administrator would like to create an SD-WAN using central management. What steps does the administrator need to perform to create an SD-WAN using central management?

- A. First create an SD-WAN firewall policy, add member interfaces to the SD-WAN template and create a static route
- B. You must specify a gateway address when you create a default static route
- C. Remove all the interface references such as routes or policies
- D. Enable SD-WAN central management in the ADOM, add member interfaces, create a static route and SD-WAN firewall policies.

Correct Answer: D
