QUESTION 1

DRAG DROP

Select each Application Design Requirement on the left and drag it to the appropriate Design Approach on the right.

Select and Place:

<u>Application Design Requirement</u>	<u>Application Design Requirement</u>	<u>Design Approach</u>
Display only relevant fields for a given task.		Assignment Instruction
Help the user perform an expected task.		Intent-driven UI
Record the justification for an action taken on a case.		Assignment notification
Alert the user of a pending assignment.		Audit note

Correct Answer:

<u>Application Design Requirement</u>	<u>Application Design Requirement</u>	<u>Design Approach</u>
	Help the user perform an expected task.	Assignment Instruction
	Display only relevant fields for a given task.	Intent-driven UI
	Alert the user of a pending assignment.	Assignment notification
	Record the justification for an action taken on a case.	Audit note

QUESTION 2

You are implementing a UI form collecting job applicant information. Users must provide values to certain fields before submitting the form. Which configuration adds asterisks to indicate the mandatory fields on the form?

- A. Use multiple Validate rules for each mandatory field
- B. Use an Edit Validate rule to verify if each of the mandatory properties has a value

- C. Use a Validate rule to verify the mandatory fields have a value
- D. Configure the mandatory fields as Required in the section rule

Correct Answer: C

QUESTION 3

A requirement for a hotel reservation case type states that as customers change their room selection, the total cost of the reservation updates. How do you satisfy this requirement?

- A. Configure a Validate rule for the room selection step.
- B. Apply a Disable when condition to the total cost field.
- C. Add a When condition to the room selection step.
- D. Define a declare expression for the total cost field.

Correct Answer: C

QUESTION 4

A requirement states: Loan applicants must enter their annual salary. If the salary is above the qualifying threshold, the application is automatically approved. If the salary is below threshold, the applicant must identify a cosigner. Select two configuration options that follow best practices to meet the requirement. (Choose two.)

- A. Design a user view with an annual salary field. Create an optional action to collect information about the cosigner and assign the action to the appropriate stage.
- B. Create an assignment step for a loan officer to review the applicant's annual salary and determine if a cosigner is necessary.
- C. Design a user view with an annual salary field and a section for cosigner information. Use a Visible When condition to display the cosigner section when the salary is below the threshold.
- D. Use a collect information step with an annual salary field. Use a decision shape to determine whether to advance to a step to enter cosigner information or complete the process.

Correct Answer: CD

QUESTION 5

What is the relationship between pyWorkPage and case data?

- A. pyWorkPage timestamps all the data generated while creating and processing a case.
- B. pyWorkPage stores all the data pages generated when a case resolves.
- C. pyWorkPage stores all the case data generated while creating and processing a case.

D. pyWorkPage stores all the data pages generated when a case resolves.

Correct Answer: C
