### QUESTION 1

While running a process, you notice that a read-only field on a form contains a value. Which tool allows you to determine if a declare expression was used to calculate the value?

- A. Declarative network
- B. Clipboard tool
- C. The Tracer
- D. Live UI

Correct Answer: C

---

### QUESTION 2

How do you reference the State property on an Address page group with the index Home?

- A. .Address(Home).State
- B. .Home.State.Address
- C. .Home(Address).State
- D. .Address.Home.State

Correct Answer: A

---

### QUESTION 3

A requirement states: Loan applicants must enter their annual salary. If the salary is above the qualifying threshold, the application is automatically approved. If the salary is below threshold, the applicant must identify a cosigner. Select two configuration options that follow best practices to meet the requirement. (Choose two.)

- A. Design a user view with an annual salary field. Create an optional action to collect information about the cosigner and assign the action to the appropriate stage.
- B. Create an assignment step for a loan officer to review the applicant's annual salary and determine if a cosigner is necessary.
- C. Design a user view with an annual salary field and a section for cosigner information. Use a Visible When condition to display the cosigner section when the salary is below the threshold.
- D. Use a collect information step with an annual salary field. Use a decision shape to determine whether to advance to a step to enter cosigner information or complete the process.

Correct Answer: CD

---

**QUESTION 4**

You are configuring an external data source using the Integration Designer. You have the REST, Dev, Stage, and Prod endpoint URLs, and a name for the data source. What other information do you need to configure the external data source?

- A. The name of the database where the source data is stored
- B. The data views using the external data source
- C. A plan for mapping the data and REST response fields
- D. A backup endpoint URL if the configured URL refuses to connect

Correct Answer: A

---

**QUESTION 5**

In a claims application, customers can file home insurance claims. Each claim contains a list of items of loss. Depending on circumstances, some claims are investigated for potential fraud in parallel to the actual claim process. Which two entities would you model as case type? (Choose two.)

- A. Fraud investigation
- B. Claim
- C. Customer
- D. Items of loss

Correct Answer: AB
